Great-Western Railway.

Telephone: 96, Wargrave.

Telegrams: Waterer 96 Wargrave.

CHOICE FLOWER SEEDS,
SELECTED VEGETABLE SEEDS,
BULBS, AUTUMN AND SPRING
PLANTING,
GARDEN TOOLS & SUNDRIES.

11 Liverpool Street
(Opposite Liverpool St. Station,
G.E.R.) and
44 London Wall,
LONDON, E.C. 2
Telephone: London Wall 3482.

During the flowering period we daily exhibit cut Specimens and Rock
Plants at our London Establishments.

RHODODENDRONS:

A FEW HINTS ON PLANTING.

SOIL.

RHODODENDRONS can be grown in almost any soil that does not contain lime in appreciable quantities. In preparing beds or borders for their reception the ground should be thoroughly trenched to a depth of two feet or more, throwing out any sand, gravel or clay that may be encountered, and replacing them with good fibrous loam and peat. The latter is not absolutely necessary, but better results are obtained where it is used, suitable proportions being one-third fibrous, loam one-third peat, and one-third of the natural soil with a sprinkling of well-rotted leaf mould, if it is available. Close, heavy soils are also benefited by the addition of some sharp sand. Fresh stable manure should be avoided, but some well-rotted stable or cow manure, or the two combined, should be added, care being taken to keep it well away from the roots when planting. A top dressing or mulching of the same can be given annually or biennially in May with advantage.

SITUATION.

Rhododendrons can be grown in practically any situation, the only exceptions being those spots entirely in the shade of big trees, or steep banks facing south. In the former case the plants are deprived of the sunlight essential to good health, while in the latter they suffer from drought during hot, dry weather. A cool, moist position suits them best, and, provided the ground is well drained, they will flourish in comparatively wet spots. Partial shade is beneficial rather than otherwise, if it can be obtained without planting too near the roots of stronger-growing subjects.

PLANTING.

This can be done at any time from October to May, except during severe frost. The ground should not be too wet, and the plants must be thoroughly trodden in when planted; in fact, if the soil has been properly prepared for them it is nearly impossible to tread Rhododendrons too firmly. They should be planted at the same depth as as they have been before, or a trifle deeper, the ground-mark on the stem being a sufficient guide for this. If the roots are at all dry they should be thoroughly soaked before being planted by standing them in water for a short time.

DISTANCES TO PLANT.

For general purposes a distance of one-and-a-half times the height of the plants out of ground is a good guide when planting Rhododendrons. Thus plants two feet in height should be three feet apart; four feet high, six feet apart, and so on.

SPECIAL NOTES.

- INSPECTION.** Bagshot Nurseries are open to inspection on all week-days. *Prospective purchasers are invited to select their Trees personally for reservation until the planting season. This provides the most reliable means of comparison when catalogue descriptions can convey no adequate comparative basis.*
- SITUATION.** Bagshot Nurseries are situated three-quarters of a mile from Bagshot Station, L. & S.W.R. Particulars of train services from the City or motor services from places in the vicinity will be forwarded on request.
- POST ORDERS.** Those unable to visit our Nurseries can rely on their requirements being carefully studied as well as on the high quality of the Trees we send out. The execution of orders would be greatly facilitated if our customers, when ordering or asking for quotations would state the approximate size of the plants required, especially in the case of Conifers, Hollies and other shrubs where individual dimensions cannot be given in the limited space of this catalogue.
- ORDERING.** The following important information facilitates Nursery and Office work, and is required in the interests of our customers :—
- STATION TO WHICH THE TREES ARE TO BE CONSIGNED.
- DESIGNATION OF CUSTOMERS, MISS, MRS., REV., OR TITLE, ETC.
- POSTAL ADDRESS IN FULL.
- Where the selection of varieties is left to us our customers' interests receive every consideration. Purposes and positions should be stated. In view of there being several other places bearing the name of **TWYFORD** in this country, it is important that **BERKS** be added to all letters and telegrams. Use of the enclosed Order Form is of great assistance to our staff.
- PACKING.** Boxes, Baskets, Crates, etc., are charged at cost price, which is allowed on their being returned to Bagshot, Carriage Paid, in good condition, labelled with the name of sender and advised. Straw and other material is also charged at actual cost, but is not returnable. All Trees and Plants are packed with scrupulous care. Empties are frequently received bearing no clue to the sender. In these cases the credit due cannot be allocated and the charge for them remains debited against the sender.
- DISPATCH** Trees and Plants are placed on Rail at Bagshot Station, L.S.W.R., and consigned Carriage Forward at Owner's Risk Rate unless contrary instructions are given. The dispatch of each consignment is advised by post simultaneously.
- DELIVERY.** We shall be pleased to quote for the delivery of lorry loads of Trees or Plants by our own Motors within a reasonable radius of either Twyford or Bagshot Nurseries. This obviates packing and transhipment.
- NON-WARRANTY.** All Trees and Plants being guaranteed inherently healthy and true to name we cannot accept responsibility for loss after they leave our care, subsequent conditions being beyond our control. If customers do not accept the goods on these conditions they should be returned immediately.
- EXECUTION OF ORDERS.** Out of fairness to all our customers all orders are executed in rotation as received. Arrangements can be made in advance to despatch on a given date, but with no guarantee that the Trees or Plants will arrive on a required day. Weather conditions are always studied when despatching.
- REMITTANCES.** Cheques and P.O. Orders should be made payable to John Waterer, Sons & Crisp, Limited, and crossed Barclay & Co. Treasury Notes should be sent by registered post. Accounts are rendered monthly and the usual credit terms to our regular customers is three months.
- ADVICE.** We shall be pleased to assist our customers on any cultural point at any time.

All communications should be sent to our Twyford (Berks), Address.

OUR PRICES are as low as is consistent with the size of the tree or plant supplied. We guarantee to send nothing in a weak condition, or too small to plant out immediately and give entirely satisfactory results. The risk of loss on planting is reduced to an absolute minimum.

BAGSHOT NURSERIES.

RHODODENDRON "BERNARD CRISP."

(A.M., R.H.S., April 26th, 1921.)

Remarkable for its massive panicles of glistening pink flowers
also for its rapid growth.

NEW RHODODENDRON

“Bernard Crisp”

(A.M. R.H.S., April 26th, 1921.)

THIS is a very great advance on any other Seedling that we have raised at our Bagshot Nurseries for more than a generation. The glistening pink trusses thrown high above the foliage give at once that idea of strength, vigour and beauty so rarely combined in one particular plant. The truss is extremely large and the growth so rapid that a three year old plant, well grown, is equal to the ordinary five year old Rhododendron.

PRESS EXTRACTS.

Rhododendron “Bernard Crisp.” A bold handsome garden variety of somewhat stiff habit. The blooms are pyramidal and the flowers are placed with a regularity that will appeal to florists. The colour is pale mauve pink with a few brown dots on the upper segments—a lovely garden plant.—*The Gardeners' Chronicle*.

Rhododendron “Bernard Crisp” (Waterer, Sons & Crisp, Limited, Bagshot). Large Flower and well shaped truss, rather in the form of “Pink Pearl.” A first-class acquisition. Award of Merit (unanimous).—

Vide Trade Press.

SEE ILLUSTRATION page 4.

Price—1½ to 2 ft. high, **10/6** each; 2 to 2½ ft. high, **15/-** each.

VIEW OF THE RHODODENDRON WALK AT BAGSHOT.

THE RHODODENDRON WALK, BAGSHOT NURSERIES

HARDY RHODODENDRONS.

OUR Nurseries at Bagshot exceed 250 acres, sixty of which are devoted to the culture of Rhododendrons. For years past it must be well known to all who have visited our Exhibitions at the Royal Botanic Gardens, Regent's Park ; Royal Horticultural Hall, Vincent Square, S.W ; Hurlingham, Manchester, Cadogan Gardens, and on the Thames Embankment, etc., that we have been most successful in producing and introducing new kinds ; yet we have recently obtained such varieties as for brightness, distinctness, hardihood, and fine foliage, entirely surpass all others yet known, and represent the work of many years. Their decorative properties, extreme hardiness, and richness of flower entitle them to the highest consideration, and we do not hesitate to say that they are entirely indispensable where fine effect on lawns, etc., is required. They are equally useful for many purposes ; for example, they are admirably adapted for planting clumps in pleasure grounds, or by the side of water, carriage drives, etc

Our collection includes the best varieties in cultivation and presents a wonderful sight during the flowering period, affording opportunities for selection and comparison not to be found elsewhere

IMPORTANT.

 It is commonly believed that Rhododendrons, Azaleas, and others of the same family, cannot be grown without having a rich peaty soil. We beg, however, to add our experience, and give our opinion that such conclusions are fallacious, and contend, not only can they be grown without the advantage of a rich peaty soil, but that materials in every way suitable can be abundantly procured on most estates or parishes in the country. Isolated cases of failure we know occur after every care has been expended in preparation of soil for them. In the absence of a good turfy, peaty soil, which we freely admit is the best, take the top spit from pasture land or old turves, the thickness of the spit being regulated as to its composition—the more turfy and fibrous the better ; this mixed with leaf mould and well-decayed manure from melon frames, well mixed, but not chopped too fine, is a very suitable compost. Many districts are admirably suited to their growth, more particularly those of a light friable loam

Do not fail as soon as the Rhododendrons are out of bloom (the end of June at latest) to have them relieved of all seed-pods. This operation is of importance, as it greatly increases their growth, and they flower more profusely in consequence. *See planting hints, page 1.*

RHODODENDRONS IN COLLECTIONS.

We shall be pleased to give the benefit of our extensive experience in making selections, on being informed the size and situation in which they are to be planted and the predominating colours desired.

We have a number of the older named varieties of Rhododendrons, which are not included in the Catalogue, and should be pleased to make offers to our Customers if so desired.

HARDY RHODODENDRONS.

CHOICE NEW VARIETIES RAISED AND INTRODUCED BY US.

The following varieties are undoubtedly the finest ever introduced ; the trusses of some are exceedingly large, and the colours very beautiful. We can highly recommend them.

				Each from
BAGSHOT RUBY	Brilliant red	6/-
BERNARD CRISP	(see illustration)	...	Glistening pink.	10/6
BRILLIANT	Bright red	6/-
CORONA	(see illustration)	...	Variable shades of blush pink ; very remarkable	6/-
DIPHOLE PINK	Deep rose pink	10/6
DUCHESS OF TECK	Pink	6/-
HON. J. BOSCAWEN	Deep pink, yellow centre	6/-
J. G. MILLAIS	Fine truss, deep rich red	10/6
LADY DECIES	Blush lilac, large truss	6/-
MESSAGE OF PEACE	White tinged with faint mauve, of remarkable beauty	21/-
STARFISH	Light pink, conspicuous stamens	10/6
SWEET SIMPLICITY	Salmon pink petal edge, shading to white interior A most en- chanting flower	10/6
TED WATERER	Blush lilac	6/-

HARDY RHODODENDRONS.

Very Early Flowering Varieties.

We would draw special attention to the following varieties of early-flowering Rhododendrons ; they are extremely beautiful and produce their blooms at a season when little else is in flower.

Ascot Brilliant	Deep blood red, very fine	} 4/6 to 7/6 each, according to size of plants.
Handsworth Scarlet	Scarlet	
Handsworth White	White	
Nobleanum	Scarlet	
„ album	White	
Præcox	Lilac	
Seedling No. 261	Pink	

HARDY RHODODENDRONS.

We have purposely omitted the names of many of the inferior kinds of Rhododendrons, and can recommend any of the varieties offered in the following list, which includes those most worthy of cultivation. For particulars of new varieties see page 9.

To assist customers in making selections we have marked the season of flowering as follows :—

E. EARLY FLOWERING VARIETIES.

M. MID-SEASON VARIETIES

L. LATE FLOWERING VARIETIES.

General Collection.

Our selection	... 1½ to 2ft., 4/6 each, 48/- per doz.,	£17 10s. per 100
	2 to 2½ft., 5/6 each, 60/- per doz.,	£22 10s. per 100
	2½ to 3ft., 6/6 each, 72/- per doz.,	£27 10s. per 100
Customers' selection—	1½ to 2ft., 5/- each, 54/- per doz.,	£20 per 100
	2 to 2½ft., 6/- each, 66/- per doz.,	£25 per 100
	2½ to 3ft., 7/6 each, 84/- per doz.,	£32 10s. per 100

except the new varieties mentioned on preceding page and those otherwise priced, to which the above dimensions do not apply.

Larger sizes can be supplied in nearly all the varieties, and special prices can be quoted according to the requirements of our customers.

Standard Rhododendrons, see page 16.

M. Album elegans	Very good white, fine shape.
M. Album grandiflorum	Fine white.
M. Alexander Dancer	Red.
M. Alice	Very fine rose pink.
M. Anica Bricogne	Soft pale mauve.
E. Ascot Brilliant	Deep blood red, very fine.
M. Atrosanguineum	Dark scarlet
M. Bagshot Ruby.	<i>See page 9</i>		
M. Baroness Henry Schroder	White and finely spotted.
M. Baroness Lionel Rothschild	Pale crimson centre, with deeper margin, fine colour.
M. Baron Schroder	Plum colour, yellowish centre, a most distinct variety.
L. Beauty of Bagshot	Exceedingly beautiful white, with decided eye.
M. Bernard Crisp.	<i>See page 5.</i>		
M. Bertram Woodhouse Currie	Brilliant crimson, light centre
E. Blandyanum	Rosy crimson.
M. Boule de Neige	White.
M. Brilliant.	<i>See page 9.</i>		
E. Broughtonii	Rosy crimson, immense truss, very fine foliage.

SHOWING THE VALUE OF THE RHODODENDRON
FOR LANDSCAPE EFFECT.

RHODODENDRON "PINK PEARL."
Wonderful masses of Shell Pink Bloom.

(See page 15.).

"CORONA."

Another new hybrid of varying shades of pink. (See page 9)

HARDY RHODODENDRONS—*continued.*

M.	Canon Furze	Rose with dark blotch.
M.	Charles Dickens	Red.
M.	Charles Thorold	Purple, greenish yellow centre
M.	Charlie Waterer	Scarlet, light centre.
E.	Chevalier Felix de Sauvage	Red, with dark spots.
M	Chionoides	Creamy white, close compact form
M	Concessum	Light centre, margined with brightest rose.
M.	Corona.	<i>See page 9</i>			
L.	Countess of Tankerville	Delicate clear rose.
L.	C. S. Sargent	Red.
M.	Cynthia	Good rosy crimson.
M.	Delicatissimum	Clear white, delicately tinted pink.
M.	Diphole Pink.	<i>See page 9</i>			
M.	Doneaster	Bright red. Price from 6/- each.
M.	Dorothy Fortescue	Dark cherry-red.
M.	Duchess of Bedford	Deep rose with light marking
M.	Duchess of Connaught	White, with lemon-coloured marking, large truss.
L.	Duchess of Teck.	<i>See page 9</i>			
L.	Earl of Shannon	Rich deep crimson.
M.	E. S. Rand	Red, yellow eye
M.	Everestianum	Rosy lilac, large truss of bloom, most abundant bloomer, fine foliage.
M.	Fastuosum flore pleno	Mauve, semi-double.
M.	F. D. Godman	Dark red.
M.	F. L. Ames	Rosy pink, light centre.
M.	Fortunei	Exquisite delicate pink, greenish yellow interior Price 7/6 each.
M.	Francis B. Hayes	White, chocolate spots, very distinct.
M.	Frederick Waterer	Fiery crimson.
E.	George Hardy	Pink passing to white, one of the largest trusses.
M	Gloriosum	Large bold flower, blush-white.
M	Gomer Waterer	White, slightly blushed, enormous truss.
M.	Helen Waterer	Bright scarlet edge, white centre.
M.	Helen Schiffner	White, distinct.
M.	Henrietta Sargent	Fine pink.
M.	H. M. Arderne	Pink, with dark blotch.
M.	H. W. Sargent	Crimson.
L.	Hon. John Boscawen	<i>See page 9.</i>			
M.	Ignatius Sargent	Soft rose.

HARDY RHODODENDRONS—*continued.*

M.	James Mason	Light centre, bright scarlet edgings, fine truss.
M.	John Henry Agnew	Pale blush, chocolate spots
M.	John Walter	Rich crimson, fine form, and very fine habit.
M.	John Waterer	Intense glowing carmine.
E.	J. G. Millais.	<i>See page 9.</i>			
M.	Kate Waterer	Clear rosy crimson, with a large yellow mark.
M.	Kettledrum	Purplish crimson.
L.	Lady Annette de Trafford	Rose and much spotted.
M.	Lady Armstrong	Pale rose.
M.	Lady Clementina Mitford	Peach colour.
L.	Lady Clementina Walsh	Beautiful light kind, edged with pink.
L.	Lady Decies.	<i>See page 9.</i>			
M.	Lady Eleanor Cathcart	Bright clear rose, with crimson spots.
M.	Lady Grey Egerton	Lilac.
L.	Lady Hillingdon	Pale mauve with yellow marking.
M.	Loder's White	Fine, pure white. Price 12/6 each.
E.	Loquendum	Scarlet, white centre.
M.	Lord Eversley	Intense dark scarlet-crimson, with black spots.
M.	Luciferum	Good clear white.
L.	Madame Carvalho	Fine clear white, greenish spots, very fine shade.
L.	Maggie Heywood	White, edged with pink, bright yellow eye.
M.	Mde. Moser	Crimson, semi-double.
M.	Mde. Pellerin	Pink, lighter centre.
M.	Marchioness of Lansdowne	Rose and spotted.
M.	Marchioness of Tweeddale	Rose-pink, yellow eye.
M.	Marquis of Waterford	Very bright pink, rather lighter in the centre.
M.	Michael Waterer	Brightest scarlet-crimson.
M.	Minnie	Bluish white, with very large blotch of orange spots, very fine.
M.	Mrs. A. Waterer	White, with yellow eye.
M.	Mrs. Cameron	Delicate pink, slightly spotted.
M.	Mrs. C. S. Sargent	Rose-pink.
M.	Mrs. E. C. Stirling	Pale pink with lilac tint.
M.	Mrs. F. Hankey	Salmon.
M.	Mrs. Holford	Deep salmon.
M.	Mrs. John Clutton	Fine clear white, good form

HARDY RHODODENDRONS—*continued*

L.	Mrs. John Kelk	Fine clear rose, very late bloomer.
M.	Mrs. John Penn	Salmon-pink, crimson edging to blooms.
M.	Mrs. John Waterer	Clear rosy crimson, very fine trusses of bloom.
M.	Mrs. Milner	Crimson.
M.	Mrs. Tom Agnew	Pure white, with lemon blotch, fine habit.
M.	Mrs. Tritton	Very bright crimson, light centre.
M.	Mrs. William Agnew	Pale rose, brighter at the edge, yellow centre.
L.	Multimaculatum	White with yellow spots, good foliage
M.	Mum	Most beautiful white, with lemon eye, large trusses.
E.	Nobleanum	Red, early flowering.
M.	Old Port	Porty crimson.
L.	Pictum	White with dark spots
M.	Pink Pearl	Flesh coloured pink, very large truss.
M.	Princess Christian	White, with large blotch of orange and black spots.
M.	Princess Ena	Soft mauve.
M.	Princess Hortense	Lilac-rose, fine grower
M.	Princess Juliana	Pink, distinct.
M.	Prometheus	Rich crimson.
M.	Purpureum elegans	Purple.
M.	Queen	Blush-white
M.	Robert Croux	Rich deep red.
E.	Rosamundi	Soft pale pink.
M.	Roseum elegans	Rose.
M.	Sappho	White, heavily spotted.
M.	Sefton	Dark maroon.
M.	Sigismund Rucker	Magenta, richly spotted with black.
M.	Starfish.	<i>See page 9.</i>			
M.	Strategist	Delicate pink.
L.	Sunshine	Bright fiery crimson.
L.	Ted Waterer.	<i>See page 9.</i>			
M.	The Bride	White, with green markings.
M.	Viscount Powercourt	Red, deeply spotted.
L.	Warrior	Rosy crimson, large truss.
M.	White Pearl	White, the flower opens a blush tint passing to white on maturing.
Price 10/6 each.					
E.	William Austin	Dark crimson
M.	William Ewart Gladstone	Deep rose

N.B.—A large number of the varieties offered can be supplied in layered plants (on their own roots), and a special list will be furnished on application.

HARDY RHODODENDRONS.

Dwarf Growing Alpine Species and other varieties.

For the decoration of rockwork, edging to clumps of the strong-growing kinds or small borders or clumps, the subjoined are admirably adapted. The varieties *Odorum* and *Govenianum* are both delightfully scented.

	Each.
<i>ciliatum</i> , large rosy lilac flowers	2/6 to 5/-
<i>dauricum atrovirens</i> , dark purple, very early flowering	2/6 5/-
<i>fastigiatum</i> , lavender-blue	3/6 5/-
<i>ferrugineum</i> , (Swiss Alpine Rose), heads of rosy scarlet flowers, dwarf habit	2/6 5/-
<i>Govenianum</i> , light purple	2/6 5/-
<i>hirsutum</i> , rosy-scarlet	2/6 5/-
<i>intricatum</i> , lavender-blue	7/6 21/-
<i>myrtifolium</i> , pretty delicate rose flowers	2/6 5/-
<i>odoratum</i> , delightfully scented... ..	2/6 5/-
<i>ovatum</i> , soft mauve	2/6 5/-
<i>ponticum</i> , see page 18	
<i>præcox</i> , beautiful rosy lilac, early flowering	2/6 5/-
<i>Punctatum</i> , rosy pink	2/6 5/-
<i>racemosum</i> , soft pink, passing to white	3/6 5/-
<i>undulatum</i> , purple	2/6 5/-
<i>Waterers' hybridum</i> , rose-pink	2/6 5/-
<i>Wilsonianum</i> , pretty pale rose... ..	2/6 5/-

LARGE RHODODENDRONS.

A number of very fine specimens of the leading hybrid Rhododendrons can be supplied suitable for specimen work, or feature plants on lawns, or for bigger effect where it is essential that large plants should be used. Specimens from 4 to 10 feet in height are available and will be specially quoted on application. Enquiries should state whether the plants are required to stand alone or for massing, as prices vary in accordance with the quality of the plant supplied.

STANDARD HARDY RHODODENDRONS.

For producing a grand and imposing display on the Lawn or Pleasure Grounds there is not to be found an evergreen flowering tree that will bear comparison with a handsome specimen Standard Rhododendron.

We have much satisfaction in stating that WE HOLD ONE OF THE LARGEST AND MOST BEAUTIFULLY GROWN STOCKS TO BE FOUND IN THE TRADE; they vary in height with from 3 to 5ft. stems, perfectly straight, with good heads.

We would intimate to our Patrons, however, that all the varieties of Rhododendrons are by no means to be recommended as standards, as many are ill-calculated to form a bushy, close, handsome head. We would recommend the choice of varieties to be left to us.

Prices from 21/- to 63/-.

HALF-STANDARDS of most approved varieties averaging from 15/- to 21/- and upwards.

Extra large specimen plants can be supplied of many varieties, prices on application

RHODODENDRON GEORGE HARDY.

Large trusses of perfect form and freely produced. (See page 13.)

RHODODENDRON MRS. JOHN CLUTTON
in Standard form (See page 14.)

SEEDLING RHODODENDRONS

As we are continually hybridising with a view to raising new forms and varieties of Rhododendrons, we have always a large stock of surplus plants for disposal at reduced rates. The strain of our seedlings is so good that we do not hesitate to say at least eighty per cent. are almost as good as named varieties. We also have a number of such kinds reproduced by layers on their own roots, and for planting in positions where an effect of general colour and foliage is required we strongly recommend these forms. Of course, where specific colours are required for a scheme, it is necessary to have named varieties. We also recommend these seedlings and layers for making up backgrounds for named sorts on the score of economy.

We can supply well-grown bushy plants, averaging—

About $1\frac{1}{2}$ to 2 feet	...	36/- per dozen
„ 2 to $2\frac{1}{2}$ „	...	42/- „
„ $2\frac{1}{2}$ to 3 „	...	60/- „

RHODODENDRON PONTICUM, ETC.

The undermentioned varieties of the more common kinds, are grown in great quantities, and sold at a cheap rate. They may be used in filling up Shrubberies, Belts, or the facings of Game Covers, Woods, etc., or made to form a background for the choicer varieties, a fine effect being produced where large plants are used. Some of the kinds, although common, are very distinct and pretty.

Ponticum, good bushy plants	125/- per 100.
Larger	30/- to 90/- per dozen.

The supply of these is extremely limited this Season

AZALEA INDICA.

We grow also large stocks of these beautiful AZALEAS which are invaluable for forcing. Where customers state the colours required and leave the selection of sorts to us they can rely on their wishes being conscientiously fulfilled.

EXTRA FINE WELL BUDDED PLANTS.

Blushing Bride,	Salmon pink, intermediate
Deutsche Perle,	Pure white, early
Flambeau,	Brilliant deep red.
Fred Sander,	Cherry red, early.
Jean Peeters,	Rosy carmine, intermediate.
Mde. J. Verveane,	Salmon, white edge, intermediate.
Mme. Petrick,	Brilliant pink, early.
President O. de Kerchove,	Carmine rose, white edge, intermediate.
Simon Mardner,	Brilliant pink, early.
Vervaeana,	Pink, bordered white, very large, early.
„ alba,	Pure white, early.

Prices:

WELL BUDDED, fine broad plants	...	38/- doz.	3/6 each.
„ „ extra selected	...	48/- „	4/6 „

AZALEAS.

WHERE space forbids the free use of the Rhododendron or for the decoration of lawns, Pleasure Grounds and Shrubberies in association with Rhododendrons, no subject has the immense possibilities of the Azalea. Their brilliant and exquisite shades, embracing nearly every degree of Scarlet, Rose, Orange, Yellow and White, more than compensate for their moderate proportions. Many are delightfully perfumed and the glowing Autumnal foliage effect is surpassed only by the gorgeous display of bloom in Spring.

The following is a list of the best English and Continental varieties but purchasers are recommended to leave the selection of sorts to us when their purposes would be carefully studied according to our intimate knowledge of the varieties offered.

SIZES and PRICES for GHENT, MOLLIS, and RUSTICA HYBRIDS.

				per doz.	each.
About 12 to 15 inches high	30/-	3/-
„ 15 to 18 „ „	36/-	3/6
„ 18 to 24 „ „	48/-	4/6
„ 24 to 30 „ „	60/-	6/-

We shall be pleased to submit a descriptive list of Liliums, Gladioli, etc., for planting in association with Azaleas on request.

HARDY GHENT.

Agathe	Orange and pink.
Auguste Mechelyneck	White.
Aurea grandiflora	Deep orange.
Aurore de Royghem	Nankeen, shaded orange.
Bouquet de Flore	Salmon pink.
Bronze Unique	Carmine and orange
Cardinal	Rich red.
Coccinea speciosa	Vivid scarlet.
Daviesii	Magnificent white.
Decus Hortorum	Salmon red.
Dr. Chas. Baumann	Deep blood red.
Emilie	Rich red.
Emma	Orange.
Fama	Rich dark red
Felix Deschamps	Cream, yellow throat
General Trauff	Rich glowing pink, yellow spots.
Gloria Mundi	Vermilion.
Graf. A. Von. Nipperg	Bright red.

HARDY GHENT—*continued*

Grand Duc de Luxemburg	Dark red.
Grandeur Triumphant	Violet red.
Guelder Rose	Orange.
Ignaea Nova	Carmine.
Josephine Klinger	Bright crimson
Louis Hellenbuick	Soft rose.
Madame Gustave Guilmont	Rich rose.
Nancy Waterer	Fine yellow, one of the best.
Oscar I.	Sulphur pink.
Pallas	Distinct clear red.
Prince Henri des Payes Bas	Bright carmine.
Pucella	Clear violet.
Queen of England	Clear bright pink.
Sang de Gentbrugge	Rich crimson.
Souvenir de Louis Van Houtte	White, deep yellow blotch.
Unique	Rich yellow.
William III.	Orange.

DOUBLE HARDY GHENT.

Arethusa	Rose and yellow.
Bartholo Lazzari	Orange yellow.
Byou de Gentbrugge	Rose pink.
Chromatella	Lemon yellow.
Phidias	Bright yellow.
Mina Van Houtte	Deep rose.
Narcissiflora	Bright yellow.
Raphael de Smet	Rosy red.
Rosetta	Rosy red and yellow.

MOLLIS HYBRIDS.

Anthony Koster	Magnificent rich yellow.
C. B. Van Nes	Bright claret red.
Chevalier de Reali	Creamy white, orange spots.
Comte de Papadopoli	Rose shaded orange.
Comte de Quincy	Bright yellow shaded with gold.
Consul Ceresole	Bright red shaded with orange.
Dulcinee	Deep salmon.
Elizabeth	Claret spotted with yellow.
Frisia	Deep red.
Hugo Hardyzer	Deep scarlet.
Isabelle van Houtte	Nankeen with orange spots.
J. C. Van Thol	Extra fine, deep claret red.
Mde. Arthur de Warrelles	Salmon shaded with orange.
Tubantia	Rich red with dark spots.
Victoria	Bright scarlet.

RUSTICA FLORE PLENO.

Aida	Bright rose, shaded violet.
Byron	White, tinted rose.
Freya	Rose shaded nankeen.
Il Tasso	Bright red, tinted rose.
Norma	Bright rose.
Phidias	Cream and rose.
Phoebe	Sulphur yellow
Ribeira	Pale rose forcing to white.

VARIOUS SPECIES.

The *amoena* are among the best of Azaleas for pot culture. *Hinodigiri* and *Rosæflora* are splendid subjects for the rock garden. *Occidentalis* and *Vaseyi* are handsome American species. *Pontica* is the common yellow Azalea.

Album odoratum grandiflora, pure white, sweetly scented ...	3/6 to 7/6 each
amoena, brilliant claret	from 30/- per doz. upwards
—Coccinea, small flowered, crimson	from 3/6 each
—Daimio, salmon red	„ 3/6 „
—Forbesiana, semi-double, deep crimson	„ 3/6 „
—Hinomayo, shell pink	„ 3/6 „
—Illuminator, purple mauve	„ 3/6 „
—Maxwelli, scarlet	„ 3/6 „
—Mikado, salmon red	„ 3/6 „
— — crimson lake	„ 3/6 „
— — alba, white	„ 3/6 „
—Obtusa fl. pl., brilliant crimson lake	„ 3/6 „
—Optima, scarlet	„ 3/6 „
—Princess Maud, deep rose	„ 3/6 „
—Rosea, deep rose	„ 3/6 „
—splendens, bright rose	„ 2/6 „
Hatsugiri, rosy mauve from 3/6 to 7/6 „
Hinodigiri, brilliant fiery red	„ 3/6 „
Hinomayo, salmon	„ 3/6 „
Kaempferi, salmon	„ 3/6 to 7/6 „
Kurume, Diamio, pink	„ 3/6 „
Ledifolia, white	3/6 & 5/- „
Ledifolia alba, pure white	2/6 & 3/6 „
Leucantha, soft mauve	„ 3/6 to 7/6 „
— alba, clear white	„ 3/6 to 7/6 „
Leucanthemum, pale mauve	„ 3/6 „
occidentalis, white, sweet-scented	„ 3/6 „
—Delicatissimum, blush	„ 3/6 „
pontica, the common yellow Azalea from 12/- to 54/- per doz.
Rosæflora, double, salmon rose	3/6 to 10/6 each
Vaseyi, soft rose standards 21/- „

ANDROMEDA JAPONICA. (See page 25.)

ERICAS, HARDY HEATHS.

Undoubtedly one of the hardiest, useful and most charming families of plants. Commencing in the winter with *Herbacea*, it is possible to have one or more species in flower every month of the year; and considering the delicate tints and attractiveness of the flowers it is somewhat surprising they are not more generally planted. They are excellent subjects for edging beds and borders, planting in masses under deciduous trees or shrubs, on slopes, sides of walks, etc., where they readily adapt themselves and flower profusely. Our collection includes the best varieties and such that cannot fail to give satisfaction.

The price quoted in each case is the minimum. In most cases larger specimens can be supplied at a proportionate increase.

ERICA		Each from	Each from
arborea		1/6	
Numerous rosy white flowers and soft green asparagus-like foliage, sweet scented. 4 to 5ft. high.			
australis		1/6	
A beautiful variety with rich rosy purple fragrant flowers. 5 to 6ft. high.			
ciliaris mawiana			
cinerea atrosanguinea			
— rubra			
Rich crimson flowers, dwarf habit; excellent for carpeting or edging.		9d. each. 8/- per doz. 60/- per 100.	
codonodes (lusitanica)		1/6	
Pretty soft green foliage covered from December till March with masses of pure white flowers 4ft.			
herbacea (carnea) (Winter Heath)			
Covered with rich rosy-red flowers from January to March; compact growth. 1 to 1½ft.			
mediterranea hybrida			
Rosy pink, commences to flower in November and continues until March, exceedingly free flowering. 1½ to 2ft.			
St. Dabeoc's Heath			
Synonymous with <i>Menziesia</i> (See page 25.)			
scoparia			
stricta			
tetralix alba (Mountain Bell Heather)		1/-	
Clusters of white flowers from August to October. 1ft.			
tetralix mollis			
vagans alba (Cornish Heath)			
One of the best varieties for edging, flowers pure white, from August to October. 1½ft.			
— aurea			
— carnea			
Lovely rosy red flowers, compact habit. 1ft.			
— rubra			
A pretty deep red form, free flowering. 1ft.			
Veitchiana			
A grand hybrid between <i>codonodes</i> and <i>arborea</i> producing in Spring numerous spikes of pure white flowers, beautifully scented 3 to 4ft.			
vulgaris alba (<i>Calluna</i>)			
Bright green foliage and white flowers. 1ft.			
— Alportii			
A form of the above with rich crimson flowers. 1ft.			
— aurea			
— carnea			
Pretty flesh coloured flowers. ¾ft.			
— carnea alba			
— cuprea			
— flore pleno			
An attractive double lilac form.			
— Hammondii			
A pretty white variety, free flowering. 1½ft.			
— rigida			
A prostrate growing variety, with white flowers. ½ft.			
— Searlii			
Quite distinct, with lovely white flowers. ½ft.			

9d. each.
8/- per dozen; 60/- per 100.

9d. each; 8/- per dozen; 60/- per 100.

ANDROMEDA SPECIOSA.

Racemes of pure white bell-shaped flowers.

(See page 25.)

AMERICAN ERICACEOUS AND PEAT-LOVING PLANTS.

In most cases larger specimens can be supplied at a proportionate increase in prices.

	Each
Andromeda	
Catesbæi 2/6	
Beautiful shrubs with pure white Lily of the Valley-like flowers.	
floribunda 2/6 to 5/-	
Branching clusters of beautiful large white flowers.	
japonica 2/6 to 5/-	
White flowers in pendulous clusters.	
— variegata 2/6 to 5/-	
polifolia major 2/6 to 5/-	
speciosa 2/6 to 5/-	
Racemes of pure white ball shaped flowers, very free.	
Clethra	
alnifolia (The Sweet Pepper Bush) 2/6 to 5/-	
Upright habit, white flowers produced in racemes, sweetly scented.	
Epigæa	
repens (American May-flower) 3/6	
Fragrant rose tinted flowers, trailing habit, evergreen.	
Erica (Hardy Heaths) (<i>see p. 23</i>).	
Gaultheria (Creeping Winter-green)	
procumbens (Partridge Berry) 1/6	
Dense tufts of shining green leaves and pendulous clusters of white flowers, followed by rich red berries in Winter.	
Shallon 1/-	
Handsome foliage and pretty bell-shaped white flowers, followed by scarlet berries; withstands the shade and drip of trees.	
tricophylla 1/6	
Kalmia. (<i>See page 27</i>).	
Ledum	
Strongly recommended for edging Rhododendron beds, etc.,; also useful for forcing.	
intermedium 2/6	
latifolium (Labrador Tea) ... 2/6	
Flowers white, tinted pink, produced in clusters during April and May. 3ft. high.	
Lyoni 2/6	
palustre 2/6	
Forms a compact bush, about 2ft. high, with pale pink flowers, in May and June.	
thymifolium 2/6	

	Each
Menziesia	
Very effective shrubs for the rock garden. Plant in moist peaty soil. Also valuable for associating with Azaleas, Rhododendrons, etc.	
polifolia (St. Dabeoc's Heath) from 1/-	
Large graceful drooping purple blooms on erect stems.	
— alba	} 10/6 per doz. 80/- per 100
Pure white form of the above.	
— atropurpurea	
Crimson purple flowers from July to October.	
Oxycoccus (Cranberry)	
macrocarpus 1/6	
The American form of this well-known shrub.	
Pernettya (Prickly Heath)	
Compact growing shrubs, producing in July small white flowers, succeeded in Autumn by various coloured berries.	
mucronata	} 18/- & 24/- Per doz.
Mixed hybrids with white, pink and red berries.	
Philesia	Each
buxifolia 3/6 & 5/-	
A beautiful and choice evergreen shrub, producing lovely carmine red tubular flowers.	
Polygala	
Chamæbuxus 1/6	
An interesting trailing plant, producing freely cream coloured flowers.	
— purpurea 1/6	
An evergreen variety, flowers rosy purple, yellow centre. A showy plant for carpeting, etc.	
Rhodora	
canadensis 2/6 to 5/-	
Produces in May lilac purple Azalea-like flowers on the wood; very effective.	
Vaccinium	
Myrtillus (Whortleberry) ... 1/6	
Young foliage prettily tinted rose, berries blue.	
ovatum 2/6 & 3/6	
Clusters of rosy white blossoms on the axils of the leaves.	
pennsylvanicum 2/6 & 3/6	
Beautiful Autumn colouring.	
Vitis-Idæa (The Native Crowberry) 2/6	
Green glossy box-like leaves and drooping trusses of pink flowers, trailing habit.	

KALMIA LATIFOLIA.
Attractive bluish pink flowers.
(See page 27.)

FRUIT OF ROSA MOYESII. See Rose Catalogue.

KALMIAS.

Latifolia (The American Mountain Laurel), is one of the most ornamental of the Ericaceous plants. This is a very beautiful flowering evergreen shrub which can be grown in almost every case where *Rhododendrons* are successful, and as the time of blooming is a little later than that of *Rhododendrons*, it forms a valuable addition to this section of plants. Large trusses of waxy pink flowers are very freely produced from June to August, and form a pleasing sight. Good bushy plants can be supplied from 2/6 each, 27/- per dozen and upwards, according to size. See *Illustration page 26*:

<i>angustifolia</i> (<i>Sheep Laurel</i>)	Pretty rose pink flowers, narrow foliage	} From 2/6 to 15/- each
<i>glauca</i>	A lovely dwarf variety with rich satiny pink flowers	
<i>latifolia</i> (<i>Calico Bush</i>)	Varying from pale blush to deep rose ...	
<i>rubra</i>	A charming variety with bright red waxy saucer-like flowers	

HARDY CONIFEROUS PLANTS

We would recommend to the attention of intending planters requiring specimens of the most popular and rare kinds, that we have an abundance of the varieties enumerated, of all sizes which will be found on inspection, in most instances, superior to the stock usually met with.

Our large specimens of CONIFERÆ we would recommend Purchasers visiting our Nursery to select for themselves.

The Nursery is easily reached from London or Reading, being near Bagshot Station on the L. & S.W. Railway.

None of the plants have been injured by pot culture, but are growing in open quarters, and are handsome and symmetrical.

The Conifers enumerated in the following pages can be supplied in various sizes and prices, and we can make good collections of nice young plants, four and five years old, from 30/- to 42/- per dozen; larger plants at 60/-, 72/- and 90/- per dozen. We have also fine specimens from 10/6 to £5 upwards each. Amongst the commoner varieties we have a number of plants suitable for planting in belts for shelter or screening purposes, and special prices can be quoted on application.

In the following list of Coniferous plants, the prices given refer to small shapely plants of the individual varieties, but in nearly all cases exceedingly fine specimens can be supplied. It is obviously impossible to quote each individual plant in this List, and generally speaking plants would be supplied of a medium size at a reasonable price, unless it is stated that specimens are required, in which event special quotations would be made.

CONIFERS.

General Collection.

In many cases larger specimens of considerable size can be supplied at proportionately increased rates.

NAME.	NATIVE COUNTRY.	EACH
Abies		
Albertiana (syn. <i>Tsuga Albertiana</i>), a rapid growing, very graceful Fir. (See illustration page 30).	B. Columbia	2/6 to 7/6

We have a very large selection of designs in Clipped Yews and Box of all dimensions.

Used in conjunction with old-world gardening, the possibilities of this form of topiary work are considerable, and a high state of accuracy in following figure design is revealed in some of the real masterpieces to be seen in our Bagshot Nurseries. It is obviously impossible to describe each specimen, but sketches and quotations would be submitted on receiving particulars of the purpose contemplated.

Hedge-Making Evergreens.

WE have a specially fine stock of plants suitable for hedge work, and, in particular, call attention to the exceedingly well-grown Yews and Hollies. The Yews have been a leading speciality of the firm for a number of years, and are not to be excelled in the country. Special attention has been paid to the form of plants for hedge purposes ; they are grown widely apart so that the base of the plant is as good as the top, and trimmed in a form to ensure a uniform size. Thus the effect of the hedge when planted is practically as established.

The Yews of all sizes can be supplied for hedge work from $1\frac{1}{2}$ to 9 or 10 feet, and it may be mentioned that in several cases we have supplied large numbers of Yews, to various clients, of 8 to 9 feet in height, which have proved eminently satisfactory. In one case alone 1,500 plants were supplied without the loss of a single plant, and the effect of the hedge after the first year's growth being so mature as to give an appearance of 30 or 40 years' growth.

Hollies and other plants are treated in similar fashion, and large numbers of hedge plants are cultivated. Special prices will be quoted upon application.

In addition to the more expensive forms of plants for hedge purposes, a large quantity of cheaper material, such as *Thuia Lobbii*, *Cupressus macrocarpa*, *Cupressus Lawsoniana*, Beech, Privet and Laurels are grown in large quantities and in various sizes. A plant which has given great satisfaction in hedge planting, *Osmanthus ilicifolius*, is also grown in considerable quantity, and may be recommended as an excellent substitute for Holly in appearance, and indeed when used in the proper position, is more rapid in growth, and is sufficiently dense in habit to be used as an outside fence if required. *Lonicera* is another valuable ornamental hedging plant in great demand.

STANDARD, WATERERS' GOLDEN HOLLY.

(See page 44.)

EVERGREEN TREES & SHRUBS.

General Collection.

In most cases larger specimens can be supplied at proportionately increased rates.

Arbutus	Each
<i>photinaefolia</i>	3/6 to 5/-
<i>quercifolia</i>	2/6 to 5/-
Unedo (Strawberry Tree) ...	2/6 to 5/-

White bell-shaped flowers and brilliant scarlet strawberry-like fruit

Arundinaria nitida (Bamboo) ...	3/6 to 5/-
--	------------

Aucuba

Handsome ornamental shrubs splendid for town gardens.

<i>japonica limbata</i> (female) ...	2/- to 5/-
— <i>maculata</i> (female) ...	2/- to 5/-
The old Japonica of gardens.	
— <i>vera</i> (female) ...	2/- to 5/-
— <i>maculata</i> (male) ...	2/- to 5/-
— <i>viridis</i> (male) ...	2/- to 5/-

Azaleas. (See page 18).

Azara

Gilliesi	2/6 to 5/-
Reddish branches. Holly-like leaves, and yellow flowers in winter	
<i>integrifolia</i>	2/6 to 5/-
Evergreen leaves and sweet-scented yellow flowers.	
— <i>variegata</i>	2/6 to 5/-
Handsome golden leaved form	
<i>microphylla</i>	2/6 to 5/-
A pretty and graceful shrub with small olive green box-like foliage and orange-red berries.	

Benthamia

<i>fragifera</i> (syn. <i>Cornus capitata</i>)	2/6 & 5/-
Covered in spring with beautiful creamy pink flowers, followed by rich scarlet strawberry-like fruit in autumn.	

Berberidopsis

corallina (Coral Barberry) ...	5/- & 7/6-
Heart shaped Barberry-like leaves and drooping clusters of crimson blossoms, very attractive.	

BERBERIS.

Many interesting additions have recently been made to this important family, which now embraces a most fascinating range of flower, foliage and berry. Highly ornamental, they are not fastidious as to quarters, but accommodate themselves readily to ordinary conditions, and are perfectly hardy. Their variety of form makes them equally useful for large or small spaces and collecting provides a delightful hobby.

Berberis—continued.

	Each
<i>angulosa</i>	from 1/6
<i>asiatica</i>	2/6 to 5/-
Berries red turning to black, with purplish bloom.	
Aquifolium (Oregon Grape) ...	1/- to 2/6
Fine foliage with beautiful autumnal tints. Fruit very abundant, black with violet-coloured bloom.	
Bealei	2/6 to 5/-
Handsome yellow marked leaves, fruit black with violet bloom.	
Candidula	2/6 to 5/-
Dwarf shrubby habit, fruit purple bloomed. A suitable subject for the Rockery.	
Corryi	3/6 & 5/-
Yellow flowers, fruit coral, in conspicuous clusters.	
Darwinii	1/- to 3/6
Flowers deep orange, fruit plum colour.	
<i>dulcis</i> (<i>buxifolia</i>)	1/6 to 3/6
Flowers golden yellow, sweetly scented, fruit purple.	
— <i>nana</i>	2/6 to 5/-
A close growing Rockery subject	
Fortunei	2/6 to 5/-
Attractive blossoms in October and November.	
Gagnepainii	2/6 to 5/-
Black fruit with blue bloom.	
<i>glaucescens</i>	2/-
<i>ilicifolius</i>	2/6 to 5/-
The Holly-leaved Barberry. Flowers rich orange yellow.	
Jamesoni	2/6 & 3/6
<i>japonica</i>	2/6 to 5/-
Flowers lemon yellow, fragrant, purple fruit.	
Knightii	2/6 to 5/-
A stately evergreen shrub, fruit purple.	
Levis	2/6 to 5/-
Attractive scarlet fruit turning to jet black.	
Lycium (sub-evergreen) ...	2/6 to 5/-
Fine purple bloomed fruit.	
Neuberti	2/6 to 5/-
Newbert's Hybrid Barberry.	
Nepalensis	2/6 to 5/-
A Himalayan species with conspicuous milky white stems and a profusion of lemon yellow flowers, produced in dense clusters, very scarce (stock limited).	
<i>nervosa</i>	from 2/6 to 5/-
Handsome foliage, fruit purplish blue.	

Berberis.

Acuminata	from 2/6 to 5/-
Large brownish-yellow flowers, long black fruit with bluish bloom.	

EVERGREEN TREES AND SHRUBS—continued.

Berberis—continued.

Each

- pruinosa** ... from 2/6 to 5/-
Handsome foliage, whitish stems and pale yellow flowers.
- Sargentii** ... 2/6 to 5/-
Flowers pale yellow, fruit black when ripe.
- spectabilis** ... 2/6 & 3/6
- stapfiana**, ... 3/6 & 5/-
Dense habit, dwarf, yellow flowers, coral fruit in short panicles.
- stenophylla** ... 1/6 to 3/6
Very free flowering, fruit bluish white, graceful pendulous habit.
- **Brilliant** ... 2/6 to 5/-
Leaves bright scarlet in winter, semi-deciduous.
- **corallina** ... 2/6 to 5/-
Buds scarlet, opening to deep yellow.
- **gracilis** ... 2/6 to 5/-
Very graceful habit, arching stems of flowers in spring and autumn.
- **Irwinii** ... 2/6 to 5/-
Dwarf habit, suitable for Rock Garden or carpeting shrubberies.
- **latifolia** ... 2/6 to 5/-
- subcaulialata** ... 1/6 to 3/6
A lovely new Barberry, forming a compact bush with gracefully reflexed branches; the leaves are small and of a beautiful glaucous tint; produces coral pink berries, which are exceedingly attractive in Autumn.
- Thibetica** ... 2/6 & 3/6
- umbellata** (sub-evergreen) ... 2/6 to 5/-
Bright red ovate fruit.
- verruculosa** ... 2/6 to 5/-
A compact growing evergreen shrub about 2ft. high; ovate leathery leaves, glaucous beneath. Flowers produced in pairs, followed by violet purple fruits.
- wallichiana** ... 2/6 to 5/-
Primrose yellow flowers and broad shining leaves.

For deciduous species see page 51.

Buxus (Box)

- balearica** ... 2/6 to 5/-
Yellowish green leaves about two inches long.
- japonica aurea** ... 2/6 to 5/-
Beautiful golden variety, compact habit.
- sempervirens** (Tree Box) ... 2/6 to 5/-
Thrives well in chalky soils and under the shade of trees.
- **argentea** ... 2/6 to 5/-
Dwarf kind with silver striped leaves.

Buxus (Box)—continued.

Each

- **nova** ... 2/6 to 5/-
- **Handsworthii** ... 2/6 to 5/-
An upright form with large leaves.
- sempervirens rotundifolia** from 2/6 to 5/-
- **suffruticosa** (Edging Box), 1/6 per yard.
- **thymifolia** ... 2/6 to 5/-
Small Thyme-like leaves.
We have also a fine collection of *Standard Green Box*, very suitable for terraces, formal gardens, etc. Sketches and prices on application.

Camellia See page 46.**Carpentaria****californica** ... 3/6 to 7/6

A very beautiful free flowering evergreen, producing large Anemone-like pure white flowers with conspicuous yellow stamens. A splendid subject for the foot of west or south-west wall in a half shady corner.

Ceanothus, exceedingly handsome shrubs for covering walls, buildings, etc.

azureus ... 2/6 to 3/6

Very large spikes of pale blue flowers.

dentatus ... 2/6 to 3/6

Small dentated leaves and spikes of blue flowers, freely produced.

divaricatus ... 2/6 to 3/6

Large spikes of bright blue flowers.

floribunda ... 2/6 to 3/6**rigidus** ... 2/6 to 3/6

Violet blue ball-like flowers in April and May.

Russellianus ... 2/6 to 3/6**thyrsiflorus** ... 2/6 to 3/6

Blue and sometimes white flowers in profusion.

Veitchianus ... 2/6 to 3/6

Smothered with bright blue flowers in April and May.

HYBRID VARIETIES (sub-evergreen).**Albert Petit** ... 2/6 & 3/6**Ceres** ... 2/6 & 3/6

Pink, of an attractive shade, profuse.

Gloire de Plantieres ... 2/6 to 3/6

Deepest sky blue, magnificent for massing on lawns, etc.

Gloire de Versailles ... 2/6 to 3/6

Beautiful lavender blue spikes.

Indigo, Indigo blue, profuse ... 2/6 to 3/6**Lucie Moser** ... 2/6 to 3/6

Deep sky blue.

Marie Simon ... 2/6 to 3/6

Pretty rose colour.

CARPENTARIA CALIFORNICA. Large white anemone-like flowers. (See page 38)

CYTISUS ALBUS. The white Portugal Broom. (See page 55).

EVERGREEN TREES AND SHRUBS—continued.

Cerasus (Prunus)	Each
Laurocerasus (Common Laurel)	
— <i>caucasica</i>	from 1/- to 3/6
— <i>colchica</i>	
— <i>latifolia</i>	
— <i>rotundifolia</i>	
— <i>lusitanica</i> (Portugal Laurel)	1/- to 7/6
— <i>myrtifolia</i>	

We have also Standard Portugal Laurels with fine heads and clean straight stems at prices varying according to the size of the plants.

Choisya (Mexican Orange Blossom)	
ternata	2/6 to 5/-
A very beautiful shrub, with clusters of sweet scented pure white flowers and very rich green leaves.	

Cistus (see Herbaceous and Alpine Plant Catalogue).

Citrus	
trifoliata (<i>Egle sepiaria</i>) ...	5/- & 7/6
Colletia	
cruciata (syn. <i>Horrida ferox</i> , <i>bictonensis</i>)	3/6 to 7/6
Produces in profusion during the summer small white sweet-scented flowers.	

Corocea	
buddleioides	2/6 to 7/6
cotoneaster	2/6 to 7/6
A dwarf New Zealand shrub with twisted branches, underside of leaves, white, small yellow flowers.	

virgata	2/6 to 7/6
Cotoneaster	
angustifolia	2/6 to 5/-
Orange yellow berries in large clusters.	

buxifolia	1/6 to 3/6
Bright red flowers, erect habit.	

congesta	1/6 to 3/6
A pretty prostrate variety, evergreen.	

Franchetii	2/6 & 3/6
Broad leaves, orange yellow berries.	

horizontalis	2/6 to 5/-
Bright vermilion berries.	

humifusa	2/6 & 3/6
White flowers, succeeded by scarlet fruit.	

microphylla	1/6 to 3/6
White flowers, followed by crimson berries.	

moupinensis	2/6 to 5/-
Pure white flowers, followed by brilliant red berries.	

pyrenaica	2/6 to 5/-
rugosa Henryi	2/6 to 5/-

A new introduction, producing bright green leaves, which are distinctly veined and channelled. In the Autumn rich crimson orange berries are freely produced in clusters.

Cotoneaster—continued.	Each
salicifolia floccosa ... from	2/6 to 3/6
Broad leathery foliage carrying numerous flowers, fruit bright red.	

thymifolia	1/6 to 3/6
Glossy Thyme-like leaves, scarlet berries.	

See also Deciduous Trees, page 53.

Crataegus (Evergreen Thorn)	
crenulata	3/6 to 7/6
A fine shrub, covered in autumn with fragrant red berries.	

Pyracantha	3/6 to 7/6
Fiery scarlet berries.	

— Lalandi Vermillion berries	3/6 to 7/6
-------------------------------------	------------

Crinodendron	
dependens	7/6 to 15/-
Hookerii	7/6 to 15/-

Daphne, fragrant free-flowering dwarf shrubs.

Blagayana	3/6
Sweet scented white flowers.	

Gneorum (The Garland Flower)	2/6 & 5/-
Lovely sweetly scented pink flowers.	

Fioniana (<i>Neapolitana</i>) ...	3/6 & 5/-
Bushy habit, flowers purplish rose, very fragrant.	

hybrida (<i>Dauphinii</i>)	3/6 & 5/-
Violet coloured flowers.	

laureola (Spurge Laurel) ...	1/6 to 3/6
Yellowish green flowers.	

oleoides	2/6 to 5/-
pontica	2/6 to 5/-

Yellow fragrant flowers borne in upright clusters.

For *Mezereum* see Deciduous Shrubs, page 55.

Decumaria	
barbara	3/6 & 5/-

Desfontainea	
spinosa	3/6 to 7/6

A Holly-like shrub, producing freely crimson and yellow trumpet shaped flowers.

Diplopappus	
chrysophyllus (syn. <i>Cassinia fulvida</i>) (Golden Heath) ...	2/6 to 3/6
Flowers creamy white.	

Drimys	
aromatica	3/6 & 7/6

Winteri	5/- & 7/6
Laurel-like leaves and red stems, a pretty shrub.	

Elæagnus	
Valuable evergreen shrubs.	

macrophyllum	5/- & 7/6
media picta	3/6 & 5/-

picta aurea	3/6 & 5/-
pungens Simonii	3/6 & 5/-

— variegata	3/6 & 5/-
---------------------------	-----------

See also Deciduous Trees, p. 57.

ESCALLONIA PHILLIPIANA.

Dense panicles of attractive white flowers. (See page 42.)

EVERGREEN TREES AND SHRUBS—continued.

Embothrium (Fire Bush)	Each	
coccineum	7/6 to 15/-	
A rare and beautiful evergreen tree growing about 20 feet high, and undoubtedly one of the most attractive in cultivation. The flowers, which are produced in large clusters, are of a vivid scarlet colour, Honeysuckle shape. Plant in a sheltered position.		
Escallonia		
Edinburgh var. , deep rose ...	2/- to 3/6	
exoniensis , pure white ...	2/- to 3/6	
Langleyensis , bright rose from	2/6 to 3/6	
Graceful drooping habit, rich red flowers.		
macrantha	2/- to 3/6	
Large pink flowers and glossy leaves.		
— Ingramii	2/- to 3/6	
Rose coloured flowers, erect growth		
— sanguinea	2/- to 3/6	
Intense ruby flowers.		
montevidensis (<i>floribunda</i>) ...	2/6 & 3/6	
Arching clusters of white flowers, very suitable for training against walls.		
newryensis	2/- & 3/6	
Phillipiana	2/6 & 3/6	
Produces densely covered panicles of white flowers (<i>see</i> illustration, page 41).		
rubra	2/6 & 3/6	
— illinita	2/- & 3/6	
Eugenia (<i>See</i> Myrtus)		
Euonymus		
Beautiful evergreen shrubs, suitable for planting under trees, and near the sea.		
japonicus	1/6 to 5/-	
— argenteo-variegatus	2/6 to 5/-	
— latifolius albo-variegatus ...	2/6 to 5/-	
radicans	1/6 to 3/6	
— variegatus	1/6 to 3/6	
<i>See also</i> Deciduous Trees and Shrubs, page 57.		
Eurya		
latifolia variegata	3/6 to 7/6	
Fabiana		
imbricata	2/6 to 5/-	
A beautiful heath-like shrub with spikes of tubular white flowers.		
Feijoa Sellowiana	7/6	
Beautiful red blooms.		
Garrya		
elliptica	2/- to 5/-	
Bears long yellowish green catkins, most attractive, from December to March.		
Thuretii	3/6 to 5/-	
Grevillea	Each	
rosmarinifolia (syn. <i>thyrsoides</i>)	3/6	
Rosemary-like leaves and clusters of red flowers.		
sulphurea	3/6	
Yellow flowers.		
Griselinia		
littoralis	3/6 & 5/-	
A handsome shrub with glossy pale green leaves, which droop in a graceful way.		
variegata	3/6 & 5/-	
Hedera (Ivy)		
Handsome evergreen shrubs for growing in towns, etc.		
arborea (Tree Ivy)	5/- to 15/-	
— chrysophylla	5/- to 15/-	
— elegantissima	5/- to 15/-	
Hymenanthera		
crassifolia	from 2/6 to 5/-	
A useful very dwarf evergreen shrub with attractive pure white berries; useful for rock gardens.		
Hypericum (St. John's Wort).		
calycinum , 30/- per 100; 6/- per dozen.		
Large yellow flowers, succeeds well under trees.		
prolificum	9/3.	
Ilex (Holly)		Nice well
Aquifolium		grown
— argentea marginata		young
— — medio-picta (Silver Milkmaid)		plants
— — pendula (Silver variegated Weeping)		from
— — regina (Silver Queen) ...		3/6
— aurea marginata		each
— — pendula (Waterers' Gold Weeping)		upwards.
— — regina (Golden Queen) ...		Specimen
— balearica		plants
— Fargesii	5/-	from
— ferox (Hedgehog Holly) ...		10/6
— argentea (Silver Holly) ...		each
— aurea (Gold Holly)		upwards.
— fructu-luteo (Yellow berried)		We can
— Hodginsii		also
— latifolia	5/-	supply
— maderensis		extra
— Mundyi		large
— scotica		specimens
— Waterer's Golden Holly ...		of some
— Wilsonii		varieties
Aquifolium (Common Holly)	per 100	particu-
1½ to 2 feet	£10/- to £12/10	lars and
2 to 2½ feet	£12/10 to £15/-	prices on
2½ to 3 "	£17/10 to £20/-	applica-
3 to 3½ "	£20/- to £22/10	tion.
3½ to 4 "	£22/10 to £25/-	
Our stock of Hollies is particularly fine, and the plants having been frequently transplanted lift with good balls of earth, thus ensuring safe removal.		

OSMANTHUS DELAVAYI.

A handsome evergreen Holly-like Shrub. (See page 44.)

EVERGREEN TREES AND SHRUBS—continued.

Ilex—continued.

Argentea Variegata	} from 3/6
Cornuta	
crenata (The Japanese Holly)	Each
— aurea variegata	from 5/- to 10/6
— latifolia	5/- to 10/6
— Pernyi	5/- to 10/6

A very handsome new Chinese evergreen Holly, dense growing, and compact habit; the leaves are about 1½ inches long and pale green in colour on the young wood, changing to very dark green on the older shoots.

F.C.C., R.H.S.

Flavescens (Moonlight)	} Nice well rooted plants at from 3/6 each upwards.
Golden King	
Golden Variegated	
Lanceolata	
Nigra Regina	
— Aurea Regina	
Scotch Gold	
Serratifolia	
Tortuosa	
Verticillata	
Waterer's Green	

Specimen plants from 10/6 each upwards. Extra large specimens, prices on application.

We have a very fine collection of **Standard Hollies**, including Waterer's, Golden Queen, Silver Queen, Gold and Silver Weeping; these being particularly handsome trees.

Young plants from 21/- each.

Laurustinus. (See *Viburnum*).**Laurus**

nobilis (Sweet Bay) ... from 3/6 to 10/6

Leptospermum

Boscaweni 5/- & 7/6

Bullatum 5/- & 7/6

Chapmanii 5/- & 7/6

Ligustrum (Privet)

lbota from 1/6 to 3/6

Large shining green leaves; forms a compact bush.

japonicum (Japanese)... from 1/6 to 3/6

A most useful shrub with shining green leaves and white flowers.

lucidum from 2/- to 3/6

A handsome evergreen from China.

— **coriaceum** from 2/6 to 7/6

A dwarf variety with glossy green leaves.

macrophyllum 2/6 & 3/6

ovalifolium (Oval-leaved) from 1/- to 3/6

The well-known variety used for hedges, *prices for quantities on application.*

— **aureum** (Golden Privet) ... 2/6 to 10/6

— **elegantissima** (Golden Variegated) from 1/6 to 5/-

Makes a beautiful ornamental hedge; also effective in groups.

Ligustrum—continued.

Each.

Quihoui from 2/6 to 5/-

sinense floribundum ... from 1/6 to 3/6

Lonicera nitida (*Honeysuckle*)... 1/6 & 3/6

A splendid evergreen variety.

Magnolia

grandiflora 7/6 & 10/6

Magnificent large white fragrant flowers.

Myrtus (Myrtle)

apiculata 3/6 to 7/6

Deliciously fragrant snow-white flowers, freely produced.

Bullatus 3/6 to 7/6

communis 3/6 to 7/6

White flowers with golden stamens in July.

obcordatus 3/6 to 7/6

Ugni (*Eugenia*) 3/6 to 7/6

Pink flowers in July, followed by ornamental berries.

— **variegata** 3/6 to 7/6

A variegated form of preceding.

Nandina (Chinese Sacred Bamboo)

domestica 3/6 to 10/6

Attractive fern-like foliage and white flowers.

Olea (Olive)

Charming for walls.

ilicifolia 3/6 to 7/6

Olearia (The Daisy Tree) ... 2/6 to 5/-

Beautiful free flowering evergreen succeeding in almost any soil.

Fosterii 2/6 to 5/-

Waxy pale green leaves, silvery underneath, and fragrant white flowers.

Haastii from 2/6 to 5/-

Small grey foliage, densely covered with beautiful starry flowers.

ilicifolia 2/6 to 5/-

macrodonata 2/6 to 5/-

Holly-like silvery grey leaves, masses of Daisy-like flowers.

nummularifolia 2/6 to 3/6

Produces fleshy leaves, closely pressed together. A curious shrub.

obovata 2/6 to 5/-

oleoefolia 2/6 to 5/-

solandri 2/6 to 5/-

stellulata (syn. *Gunniana*) ... 2/6 to 5/-

Covered in September with heads of starry flowers.

virgata 2/6 to 5/-

Osmanthus

Handsome evergreen Holly-like shrubs, thriving near the sea and under trees.

Delavayi 5/- to 10/6

A new Chinese evergreen with fragrant white flowers and green box-like foliage, flowers freely produced during March and April.

EVERGREEN TREES AND SHRUBS—continued.

Osmanthus —continued		Each
ilicifolius	2/6 to 5/-	
Sweet scented greenish white flowers.		
— argenteo-variegatus ...	2/6 to 5/-	
A variegated form of above.		
— purpureus	2/6 to 5/-	
Leaves deeply tinted bronzy purple.		
myrtifolius	3/6 to 5/-	
Narrow spineless myrtle-like foliage.		
Ozothamnus		
rosmarinifolius	2/6 to 3/6	
Produces an abundance of fragrant white flowers, small Rosemary-like foliage.		
Parrotia persica	3/6 to 5/-	
Phillyræa		
Handsome evergreen shrubs, thriving in almost any soil		
buxifolia	2/6 to 7/6	
decora	2/6 to 7/6	
Vilmoriniana	2/6 to 7/6	
Phlomis		
fruticosa	1/6 to 2/6	
Beautiful silvery foliage and large tufts of yellow flowers.		
Photinia (Chinese Hawthorn)		
serrulata	2/6 to 5/-	
The young growths in spring are a deep red colour and very attractive, white Hawthorn-like flowers.		
Phyllostachys		
nigra	3/6 & 5/-	
A rapid growing Bamboo with glistening black canes and bright green foliage.		
Piptanthus (The Evergreen Laburnum).		
nepalensis	2/6 to 5/-	
Yellow flowers, suitable for walls.		
Pittosporum		
A fine family of evergreen shrubs with light and graceful foliage and sweet scented flowers.		
eugenoides	from 3/6 to 7/6	
Blackish stems and pretty myrtle like-foliage.		
— variegatum	3/6 to 7/6	
Leaves green, deeply bordered white, very handsome.		
Mayii	3/6 to 7/6	
Silver Queen	3/6 to 7/6	
Clusters of white flowers and shining laurel-like leaves.		
— variegata	3/6 to 7/6	
undulatum (Australian Daphne)	3/6 to 7/6	
Prinos (Winter Berry)		
glaber	3/6 to 7/6	
Quercus (Oak)		
Ilex (The Holly or Holm Oak)...	3/6 to 7/6	
See also Deciduous Trees, page 62.		
Rhapiolepis (Indian Hawthorn)		
japonica (<i>ovata</i>)... ..	3/6 & 5/-	
White fragrant flowers and red berries ; a beautiful evergreen.		

Rhamnus		Each
Alaternus	2/6 to 5/-	
Fine winter foliage effect.		
— variegatus	2/6 to 5/-	
Does well by sea and on chalk, evergreen.		
Ruscus (Butcher's Broom)		
aculeatus	2/- to 5/-	
A good dwarf shrub with red berries ; grows well under trees.		
Senecio		
Grayii	2/6	
Beautiful grey leaves, which are a clear silver underneath ; a splendid rock shrub.		
Skimmia		
Handsome evergreens of compact habit, bearing rich scarlet berries ; partial to shade.		
Fortunei	2/6 & 5/-	
japonica	2/6 & 5/-	
— fragrans	2/6 & 5/-	
— oblata	2/6 & 5/-	
rubella	2/6 to 5/-	
Stranvæsia		
undulata	3/6 & 5/-	
Bright orange red fruits in corymbs, leaves turn a delicate crimson tint in autumn.		
Sycopsis		
sinensis	5/- & 7/6	
A new Chinese evergreen shrub of neat habit, attaining a height of 10 to 15 feet, leaves 2 to 3 inches long, flowers produced from the axils of the leaves during January and February.		
Ulex (Gorse, Furze or Whin)		
Most useful for dry banks or game coverts.		
europæus ... per doz.,	9/- 1/-	
— flore-pleno	21/- 2/-	
hispanica	15/- 1/6	
Veronica		
These handsome evergreen free flowering shrubs thrive on any good soil and are especially useful for seaside planting ; the dwarf varieties are very fine for rock-work.		
anomala	1/6 to 3/6	
— præcox	1/6 to 3/6	
buxifolia	1/- to 2/6	
Very dwarf with box-like foliage.		
Colensoi	1/6 to 3/6	
cupressoides	1/6 to 2/6	
Quite distinct, with foliage like a Cypress. Height 1ft.		
Hectori	1/6 to 3/6	
A distinct dwarf form, very hardy.		
hulkeana	2/6 & 3/6	
Kirkii	1/6 to 3/6	
Box-like foliage, flowers pale lilac with violet stamens.		
Lindsayi	1/6 to 3/6	
parviflora	1/6 to 3/6	
Rose pink flowers in sprays.		
pimeleoides	1/6 to 3/6	

EVERGREEN TREES AND SHRUBS—continued.

<i>Veronica</i> —continued.	Each
<i>pseudo-Traversii</i>	1/6 to 2/6
<i>salicifolia</i>	1/6 to 2/6
Bluish white flowers.	
<i>salicornioides</i> (<i>selaginoides</i>) ...	1/6 to 2/6
An attractive and distinct dwarf form; fine for rockeries.	
— <i>rotundifolia glauca</i>	1/6 to 2/6
<i>Traversii</i>	1/6 to 2/6
Pretty pale lavender flowers, box-like foliage.	
— <i>White Gem</i>	1/6 to 3/6
An elegant white form of the above.	
<i>Viburnum</i>	
<i>Henryii</i>	5/- to 10/6
A new Chinese variety with glossy green Willow-like leaves, the margin of which is serrated, also having a distinct yellow mid-rib, and coral red berries in Autumn, which present a very ornamental effect.	
<i>japonicum</i> (<i>Sieboldi</i>)	3/6 to 7/6
<i>rhytidophyllum</i> ... from	3/6 to 7/6
An attractive Chinese evergreen shrub with remarkable foliage, the broad lanceolate leaves are 8 to 9 inches long and 2 to 2½ inches broad; the upper surface, being dark glaucous green and much channelled, forms an agreeable contrast to the underside which is covered with a dense dun-coloured tomentum. Has proved quite hardy in a bleak and cold position. The vigorous growths are terminated by yellowish white flowers well above the foliage succeeded in September by an abundance of dark red berries borne in large clusters	
F.C.C., R.H.S.	

<i>Viburnum</i> —continued ...	Each
<i>Tinus</i> (<i>Laurustinus</i>)	2/6 to 5/-
Flowers pinky white.	

See also Deciduous Trees p. 67.

Vinca (Periwinkle)	} 6/- per doz. ; 45/- per 100.
Dwarf growing plants, valuable for covering shady corners and under trees.	
major	
The large flowered blue variety.	
elegantissima	
Silver variegated leaves, blue flowers.	
Yucca (Adam's Needle)	Each
Make splendid specimen plants for lawns, etc.	
angustifolia	5/- & 7/6
A distinct dwarf-form, with narrow erect foliage.	
filamentosa	3/6 to 7/6
Pale green leaves, long spikes of creamy white flowers.	
gloriosa	5/- to 10/6
Very long spikes of great beauty ; the finest variety.	
— variegata	7/6 & 10/6
Foliage elegantly variegated.	
recurva	5/- to 10/6
Elegant recurved leaves and long spikes of flowers.	

CAMELLIAS.

We grow a magnificent stock of these handsome flowering evergreens and the plants offered are well budded. They are invaluable for the cool conservatory and some forms are adapted to out-door culture in sheltered positions. They will not tolerate lime.

Price 7/6 to 15/- each.

Alba Compacta, pure white.
Alba Plena, pure white, double.
Baronne Lequoy, cerise pink.
Comte de Gomer, striped pink.
Chandleri Elegans, pink with white stripes.
Countess Lavinia Maggi, white with red stripes.
Doncklari, red with white spots.
Duchesse de Cazes, striped.
Festiva, light red.
Latifolia, variegated.
Madame Cachet, white with light red.
Marguerite Gouillon, variegated.
Mathotiana Alba, pure white.

Montironi, white.
M. Francillon, red.
Marguerite Caleonie, carmine.
Madame Leblois, red.
Noblissima, pure white.
Principesca Bacchiochi, carmine with white
Platipetala, white with pink spots (stripes).
Rubens, salmon with white stripes.
Storeyi, pink.
Souvenir de Liton, light pink.
Tricolor de Siebold, striped gold.
Vallevarado, pink.

VIBURNUM PLICATUM. The Japanese Snowball Tree (Deciduous). (See page 67.)

VIBURNUM FRAGRANS. (See page 67.)

BERBERIS POLYANTHA.

Yellow flowers followed by coral red fruit. The foliage develops attractive Autumn tints.
(See page 51.)

DECIDUOUS TREES & SHRUBS.

General Collection.

In cases larger specimens can be supplied at proportionately increased rates.

Abelia	Each
floribunda 3/6	
Rosy purple flowers.	
rupestris (<i>chinensis</i>) ... from 2/6	
Sweetly scented pink flowers.	
triflora 5/-	
Sweetly scented rosy pink flowers.	
Abutilon	
vitifolium 3/6	
A rapid grower, with ornamental vine-like foliage, lovely pale mauve, bell-shaped flower.	
Acacia (<i>see</i> Robinia)	
Acanthopanax	
ricinifolium 3/6 to 7/6	
An attractive foliage plant, thorny stems.	

Acer (Maple)

Japanese species and varieties.

JAPANESE MAPLES.

We hold one of the finest collections of Japanese Maples extant. These will be featured at City and Provincial Exhibitions, and personal inspection is always welcomed at Bagshot. Only by personal inspection can one get any accurate conception of their intense beauty of tint and colouring.

Brilliantissimum 7/6 to 21/-	
— laciniatum 3/6 to 10/6	
crataegifolium 2/6 to 10/6	
Ginnala 2/6 to 10/6	
japonicum 3/6 to 10/6	
Light green foliage.	
— aureum 3/6 to 10/6	
Pale green when young, tinged with gold and orange scarlet in Autumn.	
— palmatum (<i>polymorphum</i>) ... 2/6 to 7/6	
— atropurpureum 2/6 to 7/6	
Deep bronzy purple leaves.	
— variegatum 3/6 to 10/6	
— dissectum 3/6 to 10/6	
— ornatum 5/- to 15/-	
— purpureum 5/- to 15/-	
— variegatum 5/- to 15/-	
Leaves deeply cut and finely divided from the margin to the mid-rib.	

Acer—continued.	Each
— flavescens 3/6 to 10/6	
— linearilobum 3/6 to 15/-	
— purpureum 3/6 to 15/-	
— palmatifidum 3/6 to 15/-	
— roseo-marginatum 3/6 to 15/-	
Green leaves margined rose.	
— sanguineum 3/6 to 15/-	
— septemlobum elegans ... 3/6 to 15/-	
Leaves green flushed with red.	
— purpureum 3/6 to 15/-	
Deep purple leaves.	

Mixed Seedlings 2/6

Un-named, embracing exquisite variations in colour and leaf form, very useful for foliage effect.

Other Species and Varieties.

negundo (<i>Negundo fraxinifolium</i>) (Ash-leaved Maple). 2/6 to 10/6	
— albo-variegatum 3/6 to 10/6	
Beautiful silvery variegated leaves.	
— aureo-variegatum 3/6 to 15/-	
Golden variegated foliage.	
Pseudo-platanus (Sycamore) ... 1/6 to 5/-	
saccharinum (Sugar or Bird's Eye Maple) 2/6 to 10/6	
Remarkable for the beautiful markings of its wood.	
tartaricum 3/6 to 10/6	
Æsculus (Horse Chestnut)	
californica 3/6 to 21/-	
Sweet scented pale rose flowers.	
Hippocastanum (Common) ... 1/6 to 10/6	
carnea (Red Horse Chestnut) 3/6 to 21/-	
— Briotti 3/6 to 21/-	
Rich red flowers.	
parviflora macrostachya ... 2/6 to 7/6	
Pavia (Red Buck Eye Chestnut) 3/6 to 21/-	
Scarlet flowers.	
— indica 3/6 to 21/-	

Ailanthus

glanduiflora (Tree of Heaven) ... 2/6 to 7/6	
Clusters of small greenish white flowers, followed by reddish peculiarly twisted fruits	

DECIDUOUS TREES AND SHRUBS—GENERAL COLLECTION—continued.

<i>Alnus</i> (Alder)	Each
<i>glutinosa</i> (Common Alder) ...	1/- to 3/6
— <i>foliis aureis</i> ...	3/6 to 7/6
— <i>laciniata</i> (Cut-leaved Alder) ...	2/6 to 5/-

A thea frutex (see *Hibiscus*)

<i>Amelanchier</i> (Snowy Mespilus)	
<i>canadensis</i> (<i>Botryapium</i>) ...	3/6 to 7/6
Snow white flowers, purple crimson fruit.	
<i>vulgaris</i> ...	2/6 to 7/6
White flowers, deep purple fruit.	

<i>Amorpha</i>	
<i>canescens</i> (Lead Plant) ...	2/6 to 7/6
Deep purple blue flowers.	
<i>fruticosa</i> (False Indigo) ...	2/6 to 7/6
Violet flowers with conspicuous yellow stamens.	

Amygdalus (see *Prunus*).

<i>Aronia</i>	
<i>floribunda</i> ...	2/6 to 7/6
Assumes a grand Autumn tint.	

<i>Artemisia</i>	
<i>abrotanum</i> (Southernwood) ...	9d.
Fragrant, soft grey foliage.	

<i>Atriplex</i>	
<i>Halimus</i> ...	2/6
Glaucous foliage, of graceful drooping habit.	

Beech (see *Fagus*).

Berberis (see note page 37).

<i>actinacantha</i> Blue-black fruit.	3/6 to 5/-
<i>ætnensis</i> (Mount Etna Barberry) ...	2/6 to 5/-
Flowers May and June, pretty red fruit, a good Rockery subject.	

<i>Aggregata</i> ...	2/6 to 5/-
<i>aristata</i> ...	2/6 to 5/-
Red fruit with bluish-white bloom.	

<i>brevipaniculata</i> ...	1/6 to 5/-
Flowers pale yellow, fruit ovate, terra-cotta red, very fine	

<i>concinna</i> ...	2/6 to 5/-
Very attractive, long ovate berries of rich flesh colour.	

<i>dictyophylla</i> ...	3/6 to 5/-
Flowers pale yellow, fruit bright red.	

<i>diaphana</i> ...	3/6 to 5/-
Brilliant red ovate fruit.	

<i>elegans</i> ...	3/6 to 5/-
--------------------	------------

<i>Guimpelli</i> ...	3/6 to 5/-
----------------------	------------

<i>lucida</i> ...	3/6 to 5/-
-------------------	------------

<i>Maximowiczii</i> ...	3/6 to 5/-
A fine variety of <i>Thunbergii</i> form.	

<i>macrantha</i> ...	2/6 to 5/-
<i>macrophylla</i> ...	2/6 to 5/-

<i>Berberis</i> —continued.	Each
<i>pallens</i> ...	from 2/6 to 5/-
<i>pekinensis</i> ...	2/6 to 5/-
<i>polyantha</i> ...	1/6 to 5/-

A deciduous shrub, growing about 6ft. high, with yellow flowers, followed by coral red fruits, bright green obovate leaves borne in clusters. (See illustration page 49.)

<i>Prattii Recurvata</i> ...	3/6 to 5/-
The most beautiful of <i>Berberis</i> , the fruit is brilliant coral scarlet, profusely borne.	

<i>Sieboldii</i> ...	3/6 to 5/-
Glossy yellowish red fruit.	

<i>Thunbergii</i> ...	1/6 to 3/6
Yellow flowers with reddish sepals, leaves turn a beautiful scarlet in Autumn.	

<i>virescens</i> Fruit bronzy red	3/6 to 5/-
turning to black.	

<i>vulgaris</i> (The Common Barberry)	1/6 to 3/6
Fruit brilliant red, attractive foliage colouring in the Autumn.	

— <i>purpurea</i> ...	2/- to 5/-
A purple-leaved form; one of the handsomest of all shrubs.	

<i>Wilsonæ</i> ...	2/6 to 5/-
--------------------	------------

A splendid hardy shrub of dwarf habit, with much branched stems covered with innumerable leaves about $\frac{1}{2}$ inch long; the spines are about 1 inch long, and provide protection against birds when the plant is in berry; rich golden flowers and very freely produced coral red berries.

<i>Yunnanensis</i> ...	3/6 to 5/-
Fruit bright red, very attractive.	

<i>Betula</i> (Birch)	
<i>alba</i> (Common Birch) ...	1/- to 5/-
— <i>incisa pendula</i> ...	2/6 to 7/6
A beautiful pendulous variety.	
— <i>laciniata</i> ...	1/- to 2/6
— <i>pendula Youngii</i> ...	7/6 to 15/-
Very graceful habit.	

<i>Buddleia</i>	
<i>Colvillei</i> ...	3/6 & 5/-
Beautiful deep rose flowers.	

<i>globosa</i> (Orange Ball Tree) ...	2/6
Globular heads of orange yellow flowers.	

<i>variabilis magnifica</i> ...	2/6
Large spikes of deep rosy purple flowers.	

— <i>superba</i> ...	2/6
Huge spikes of purplish flowers.	

— <i>Veitchiana</i> ...	2/6
Spikes of bright mauve flowers.	

CARYOPTERIS MASTACANTHUS.

The Blue Spiræa.

Rich violet flowers in Autumn. (See page 53.)

DECIDUOUS TREES AND SHRUBS—GENERAL COLLECTION—continued.

Cæsalpinia japonica	Each	3/6 to 7/6
A Japanese shrub, the branches of which are covered with curious spines, very graceful fern-like foliage and bright golden yellow Laburnum-like flowers; makes a splendid wall plant.		
Callicarpa Giraldiana	3/6 to 10/6	
Lilac coloured berries in Autumn.		
Calycanthus floridus (Allspice)	2/6 to 5/-	
Deep purple flowers, strongly scented.		
præcox (<i>Chimonanthus fragrans</i>)	2/6 to 5/-	
Yellowish white flowers, delightfully scented.		
Caragana arborescens (Siberian Pea Tree)		
— pendula	3/6 to 7/6	
Carpinus (Hornbeam)		
Betulus (Common)	1/- to 3/6	
For Hedging. Prices on application.		
— incisa	2/6 to 7/6	
Caryopteris Mastacanthus (Blue Spiræa) ...	2/6	
A Chinese shrub with silvery green foliage, produces in Autumn rich violet flowers. (See illustration, page 52).		
Castanea (Sweet Chestnut)		
sativa (Spanish Chestnut)	2/6 to 5/-	
Catalpa bignonioides (<i>syringæfolia</i>) ...	5/- & 7/6	
White tubular bell-shaped flowers streaked and speckled yellow and purple.		
— aurea A beautiful golden-leaved variety.	5/- & 7/6	
Bungei	3/6 & 5/-	
Large greenish yellow flowers with brown spots.		
japonica	2/6 to 5/-	
Cerasus (see <i>Prunus</i>).		
Cercidiphyllum japonicum	3/6 & 5/-	
A rare shrub with fine heart-shaped leaves, which turn a brilliant crimson in Autumn. 5-6ft.		
Cercis canadensis	from 3/6 to 7/6	
Siliquastrum (Judas Tree)	5/- to 10/6	
Attains a height of about 10 feet, bushy habit, round bluish green leaves, and rosy purple flowers.		
Chamaecerasus Maximowiczii	2/- to 3/6	
Chimonanthus fragrans (see <i>calycanthus præcox</i>).		
Clerodendron Fargesii	2/6 to 5/-	
Flowers white, fragrant, followed by blue berries.		
foetidum	3/6 to 7/6	
trichotomum	3/6 to 7/6	
Masses of red and white fragrant flowers.		
Colutea arborescens (Bladder Senna) ...	Each	2/6
Yellow pea-like flowers, followed by red tinted bladder-like pods.		
Comptonia asplenifolia (Cut leaved Myrica)	3/6 & 5/-	
Delightfully fragrant fern-like foliage.		
Cornus (Dogwood)		
A family of shrubs which look particularly cheerful in Winter.		
Brachypoda variegata	2/6 to 5/-	
alba	1/6 to 2/6	
Slender reddish stems, creamy white flowers.		
— atrosanguinea	1/6	
— Spathii	2/6	
Beautiful golden foliage.		
— variegata	2/6	
Kousa (<i>Benthamia japonica</i>) ...	3/6 to 7/6	
Ivory white flowers, Autumn foliage tints.		
masculia variegata	2/6 & 3/6	
A beautiful form with silvery variegated leaves.		
sanguinea	1/6	
Creamy white flowers, produced in clusters.		
Coronilla Emerus (Scorpion Senna) ...	2/6	
Corylus (Nut)		
Avellana aurea	2/6 to 5/-	
Golden leaves.		
— purpurea	1/6 & 3/6	
Large shining purple leaves.		
Cotoneaster acuminata	2/6 to 5/-	
acutifolia	2/- to 5/-	
Flowers in June pale rose colour, followed by dark red berries.		
affinis	2/- to 5/-	
applanata	from 2/6 to 5/-	
The leaves are dark green above and covered with a grey tomentum beneath; produces in great profusion brilliant scarlet berries, which are retained far into the Winter months.		
arborescens	2/6 to 5/-	
bacillaris	2/6 to 5/-	
divaricata	2/6 to 5/-	
A new plant from China, dark red ovoid fruit.		
Fontainesii A distinct form bearing large cherry-like fruit.	2/6 to 5/-	
frigida	2/6 to 5/-	
White flowers, scarlet berries, of spreading habit.		
Hookeri	2/6 to 5/-	
Lindleyana	2/6 to 5/-	
multiflora	2/6 to 5/-	
Hawthorn-like bloom abundantly borne in Spring. Dull red fruits.		

PRUNUS MOSERI fl. pl.

PHILADELPHUS VIRGINAI.

DECIDUOUS TREES AND SHRUBS—GENERAL COLLECTION—continued.

<i>Cotoneaster</i> —continued.	Each
<i>prostrata</i>	2/6 to 5/-
<i>reflexa</i>	2/6 to 5/-
Fast growing, suitable for walls, large red fruit.	
<i>Simonsii</i>	1/6 to 3/6
Produces abundantly brilliant red berries.	
<i>sinensis</i>	2/6 to 5/-
<i>vulgaris</i> (<i>integerrima</i>)	2/- to 5/-
<i>Zabelii</i>	2/6 to 5/-
Ovate pale green leaves, large red fruit.	

<i>Crataegus</i> (Thorn)	} Pyramids from 3/6 to 7/6 each. Standards 5/-; 7/6 and 10/6 each.
<i>americana</i>	
<i>Azarolus vera</i> ... standards	
<i>Carriere</i>	
<i>coriaceum</i>	
— <i>crus-galli splendens</i>	
<i>Leedsii</i> ... standards	
<i>M. Jules d'Asnier</i>	
<i>Oxycantha</i> (Common Hawthorn)	
— <i>Coccinea plena</i> (Paul's Double Scarlet)	
— <i>multiplex</i> (Double White) ...	
— <i>pendula</i>	
— <i>præcox</i> (Glastonbury Thorn)	
— <i>punicea</i> (Scarlet Thorn) ...	
— <i>rosea</i> , fl. pl. (Double Pink)	
<i>tenacetifolia</i> ... standards	

<i>Cydonia</i>	} 2/6	
<i>japonica</i> (Japanese Quince) ...		
— <i>atropurpurea</i>		
— <i>aurora</i>		
— <i>Cardinalis</i>		
— <i>Knap Hill variety</i>		
Rich salmon red blossoms.		
— <i>macrocarpa</i>		
— <i>Mœrlœsii</i>		
A beautiful pink and white form.		
— <i>navalis</i>		
Large pure white flowers.		} 3/6 & 5/-
— <i>rosea</i>		
— <i>Maulei</i>		
A very beautiful shrub for nearly any position; it is covered from early March to end of May with large apple-blossom like orange scarlet flowers.		
— <i>alba</i>	} Effective white variety.	
— <i>superba</i>		
Very large deep scarlet flower.		

<i>Cytisus</i> (Broom)	
<i>albus</i> (White Portugal Broom)	2/-
<i>Ardoinii</i>	2/6
Bright yellow flowers, splendid for rockeries.	
<i>Dallimorei</i>	3/6
Ruby rose, shaded mauve.	
<i>Daisy Hill</i>	2/6
Sulphur and rose, very attractive.	
<i>Dragon Fly</i> Bright yellow with black blotches.	2/6
<i>Firefly</i>	2/6

<i>Cytisus</i> —continued	Each
<i>Kewensis</i>	2/6
Pale sulphur coloured flowers, dwarf habit.	
<i>May Fly</i> Bright yellow & rose.	2/6
<i>monspessulanus</i>	2/6
<i>Newry Seedling</i>	2/6
Cream and pink.	
<i>nigricans</i>	1/6
Golden yellow flowers.	
<i>purgans</i>	2/-
<i>purpureus</i> Masses of purple flowers, trailing habit.	2/6
<i>schickkænsis</i>	2/6
A dwarf growing species producing an abundance of pure white flowers.	
<i>scoparius</i> (Yellow Broom) ...	1/6
Very effective bright golden yellow blossoms.	
— <i>Andreanus</i>	2/6
Remarkable for the rich brownish purple or crimson centre to the yellow flowers.	
— <i>pallidus</i>	2/6
— <i>præcox</i>	2/6
Creamy coloured Broom.	
<i>triflorus</i>	2/6
Large yellow flowers.	

Standard *Cytisus*

These fine feature trees can be supplied in a number of varieties at from 7/6 each

<i>Daphne</i>	
<i>caucasica</i>	3/6 & 5/-
<i>Mezereum</i>	3/6
Fragrant reddish purple flowers.	
— <i>atro-rubrum</i>	3/6
Sweet scented deep red flowers.	
— <i>flore-albo</i>	3/6
A pretty double white form, sweetly scented.	

<i>Davidia</i>	
<i>involucrata</i>	7/6 to 15/-
A rare and beautiful tree, growing to a height of 30 feet, with leaves similar to the Lime. The most striking feature of the plant is its large pure white bracts, which are produced in May, forming a conspicuous contrast to the dark green foliage.	

<i>Desmodium</i>	
<i>penduliflorum</i> (<i>Lespedeza bicolor</i>)	2/6
Long graceful panicles of rich violet coloured flowers.	

<i>Deutzia</i>	
<i>crenata flore-pleno</i>	2/- & 3/6
Beautiful rose-tinted flowers.	
<i>discolor major</i>	2/- & 3/6
Long arching sprays of white flowers in June.	
<i>Fortunei</i>	2/- & 3/6
<i>Glomerifolia</i>	2/- & 3/6

ENKIANTHUS CAMPANULATUS, A rare Japanese Shrub with clusters of waxy deep red bells.
The foliage turns brilliant red. (See page 57.)

AZALEAS for the Conservatory. Details of these will be found on page 18.

DECIDUOUS TREES AND SHRUBS—GENERAL COLLECTION—continued.

<i>Deutzia</i> —continued.		Each
<i>gracilis</i>	2/- & 3/6	
Free flowering single white variety.		
<i>kalmiæflora</i>	from 2/- to 3/6	
Rosy white flowers.		
<i>Lemoinei</i>	from 2/- to 3/6	
Produces freely large white flowers.		
— <i>Boule de Neige</i>	2/- to 3/6	
<i>Multiiflora</i>	2/- & 3/6	
<i>Pride of Rochester</i>	2/- & 3/6	
<i>scabra</i> (<i>crenata</i>)		
White; a fine variety.		
— <i>discolor flore-roseo pleno</i>	2/- to 3/6	
— <i>Watereri</i>		
Very large white flowers.		
<i>Vilmorinæ</i>	3/6 & 5/-	
<i>Diervilla</i> (<i>Weigela</i>)		
<i>amabilis</i>		
Pale pink.		
<i>rosea</i>		
Pretty rose shade.		
— <i>candida</i>		
Creamy white.		
— <i>Eva Rathke</i>		
Bright crimson.		
— <i>hortensis nivea</i>	2/6	
Large pure white flowers.		
— <i>Looymansii aurea</i>		
— <i>Madame Couturier</i>		
— <i>Madame Abel Carriere</i>		
<i>Mont Blanc</i>		
<i>Othello</i>		
— <i>Saturne</i>		
<i>Van Houtti</i>		
Large dark carmine red flowers. And others.		
<i>Edwardsia</i>		
<i>Macnabiana</i> (<i>microphylla</i>)	3/6 & 5/-	
<i>tetraptera</i> (<i>grandiflora</i>)	3/6 & 5/-	
<i>Elæagnus</i>		
<i>Japonica</i>	2/6 & 3/6	
<i>longipes</i> (<i>edulis</i>)	2/6 & 3/6	
Silvery leaves and orange red fruits.		

<i>Enkianthus</i>		
<i>campanulatus</i>	3/6 to 7/6	
A rare Japanese shrub producing in early Spring clusters of waxy bell-shaped deep red flowers; in the Autumn the foliage turns a brilliant fiery red; being of rather slow growth it makes a splendid subject for the rock garden or choice shrubbery.		

<i>Eucryphia</i>		
<i>pinnatifolia</i>	5/- to 10/6	
A distinct and rare Hardy Shrub from Chili. It forms a sturdy bush about 12 feet high, which is covered during August and September with beautiful snowy white flowers about 2 inches across. It thrives best in good sandy loam.		

<i>Euonymus</i>		Each
<i>amurensis</i> (<i>alatus</i>)	2/6 & 5/-	
Beautiful Autumn tints.		
<i>aurea picta</i>	2/6 & 5/-	
<i>europæus</i> (Spindle Tree)	1/6 & 2/6	
— <i>atropurpureus</i>	2/- to 3/6	
<i>latifolius</i>	2/6 & 3/6	
<i>yedoensis</i>	2/6 & 3/6	
Creamy yellow flowers with purple anthers, succeeded by carmine fruit.		

<i>Exochorda</i> (Pearl Bush)	
<i>Albertii</i>	3/6 to 7/6
Large white flowers, like single roses.	
<i>grandiflora</i>	3/6 & 5/-
Beautiful white flowers.	

<i>Fagus</i> (Beech). For Hedging.	
Prices on application.	
<i>Sylvatica</i> (Common Beech)	1/6 to 2/6
— <i>cuprea</i> (Copper Beech)	3/6 to 10/6
— <i>laciniata</i> (Cut-leaved).	3/6 to 10/6
— <i>purpurea</i> (Purple Beech)	3/6 to 10/6

<i>Fatsia</i>	
<i>horrida</i>	3/6 & 5/-

<i>Forsythia</i>	
<i>intermedia</i>	2/- & 3/6
A hybrid between the two following varieties with golden yellow flowers.	
<i>suspensa</i>	2/- & 3/6
Produces early in Spring masses of yellow flowers.	
<i>viridissima</i> Masses of yellow blossoms in March.	2/- & 3/6

<i>Fraxinus</i> (Ash)	
<i>excelsior</i> (Common)	1/- to 2/6
— <i>pendula</i> (Weeping Ash)	7/6 to 42/-

<i>Fremontia</i>	
<i>californica</i>	5/- to 10/6
A rare and beautiful plant bearing bright yellow cup-shaped wax-like flowers, often 2 to 3 inches across, with distinct orange stamens	

<i>Fuchsia</i>	
<i>Exoniensis</i> (syn. <i>Corallina</i>)	
Crimson and purple flowers.	
<i>macrostemma</i>	
Bright scarlet flowers.	
— <i>gracilis</i>	
Very graceful habit, crimson flowers.	
— <i>elegans</i>	
<i>Mdme Cornellison</i>	
Scarlet and white blossoms.	
<i>Riccartoni</i>	
Brilliant red, strong growing.	
<i>Telegraph</i>	
Deep purple and crimson flowers.	

from 1/- each

GENISTA PILOSA.

HALESIA TETRAPTERA. Clusters of pure white flowers. (See page 59.)

DECIDUOUS TREES AND SHRUBS—GENERAL COLLECTION—continued.

Genista		
ætnensis		
Numerous bright yellow flowers.		
capitata		
dalmatica		
Spreading habit, profuse yellow flowers in Summer.		
hispanica		
Pretty yellow flowers.		
— nana		
A dwarf form of above suitable for rockery.	2/- each.	
humifusa	From	
pilosa	22/-	
Bright yellow flowers.	per doz.	
prostrata		
Dwarf spreading habit.		
purgans (<i>Cytisus purgans</i>) ...		
An interesting Summer flowering species.		
radiata		
A distinct evergreen variety with yellow flowers.		
sagittalis		
A small prostrate species.		
sericea		
tinctoria	Each	
— flore pleno	2/6	
A beautiful double variety.		
virgata Masses of yellow flowers; one of the best.	2/6	
Ginkgo		
biloba (<i>Maidenhair Tree</i>) ...	5/- & 7/6	
Gleditschia		
triacanthos	2/6 & 3/6	
Gymnocladus		
canadensis	3/6 & 5/-	
Halesia (<i>Snowdrop Tree</i>)		
tetraptera Masses of pure white flowers in clusters.	3/6 to 7/6	
Hamamelis (<i>Witch Hazel</i>)		
arborea Interesting yellow flowers from Dec. to January.	5/- to 10/6	
japonica rubra	5/- to 10/6	
— zuccariniana	5/- to 10/6	
Lemon yellow flowers.		
Mollis	7/6 & 10/6	
A very remarkable hardy Chinese Witch Hazel, with fine large foliage, covered underneath with a downy felt, the flowers rich orange yellow with deep chocolate centre.		
virginica (<i>American Witch Hazel</i>)	3/6 & 5/-	
Flowers before the other species.		
Hedysarum		
multijugum Silky grey green foliage, rose purple pea-like flowers.	2/6	
Hibiscus		
syriacus (<i>Althea frutex</i>) ...	2/6 & 3/6	
Purple flowers with deeper blotch at base of petals.		
Single and double varieties to colour, our selection, 2/- each, 21/- doz.		
Hippophæ (<i>Sea Buckthorn</i>) ...	Each	
rhamnoides fœmina	3/6 & 5/-	
— mascula	3/6 & 5/-	
Forms beautiful silvery-looking bushes wreathed with clusters of bright orange berries.		
In planting, 1 male should be planted to every 6 females to ensure a full crop of berries.		
Hydrangea		
acuminata	2/6 to 5/-	
arborescens	2/6 & 3/6	
Flowers a dazzling white; a magnificent variety.		
arborescens grandiflora ...	2/6 to 5/-	
Immense bunches of white flowers.		
Hortensia	2/6 & 3/6	
Large clusters of white flowers.		
— variegata	2/6 to 5/-	
Variegated leaves.		
— Mariesii	2/6 to 5/-	
Flowers a lovely metallic blue		
— Otaksa	2/6 to 5/-	
A pretty flesh coloured variety		
— Thomas Hogg	2/6 to 5/-	
A beautiful pure white variety.		
Madame Moulière	2/6 to 5/-	
Immense pure white heads.		
Mousseline , Lovely blue ...	3/6 to 7/6	
paniculata grandiflora ...	2/6	
Immense erect trusses of white blossoms.		
quercifolia	3/6	
White flowers in July, which change to greenish purple.		
Hypericum (<i>St. John's Wort</i>) ...		
Androsæmum (<i>Sweet Amber</i>)		
Heads of yellow flowers, followed by reddish purple berries.	2/- to 3/6	
Moserianum		
Clusters of wax-like golden yellow flowers with crimson tipped stamens.	12/- Doz.	
Special Prices for large quantities.		
patulum	Each from 1/6	
— Henryi	2/6	
Panicles of large golden yellow flowers; erect habit.		
Indigofera		
Floribunda	3/6 & 5/-	
Graceful sprays of grey green leaves and deep red blossoms.		
Gerardiana	3/6 & 5/-	
Rosy purple flowers.		
Jamesia		
americana	3/6 & 5/-	
Trusses of white flowers, each about ½ inch across.		
Juglans (<i>Walnut</i>)		
nigra (<i>Black Walnut</i>)	7/6 & 15/-	
regia (<i>Common Walnut</i>) ...	7/6 & 15/-	
— laciniata	7/6 & 15/-	
A most ornamental form.		

DECIDUOUS TREES AND SHRUBS—GENERAL COLLECTION—continued.

Kerria (<i>Corchorus</i>) (Jew's Mallow) Each.	
japonica	2/6 & 3/6
— flore pleno Masses of double orange yellow flowers.	2/6 & 3/6
— variegata	2/6 & 3/6
A variegated-leaved variety.	
Koelreuteria	
paniculata	2/6 to 5/-
A dwarf growing tree with pretty fern-like foliage, which turns a lovely colour both in Autumn and Spring, flowers in terminal spikes, yellow.	
Laburnum	
Adamii (<i>vulgare purpurascens</i>) ...	2/6 to 5/-
Yellow and purplish flowers.	
vulgare (Common)	2/6 to 5/-
Golden yellow flowers in drooping trusses.	
— aureum	3/6 to 5/-
Vossii standards	7/6 to 10/6
Laurus	
— Benzoin (Spice Bush) ...	3/6 to 7/6
Beautiful Autumn tints.	
Schipkaensis	3/6 to 7/6
Lespedeza	
bicolor see <i>Desmodium Penduliflorum</i> .	
Leycesteria	
formosa	2/6 & 3/6
Small white flowers borne in circles on arching stems.	
Liquidambar	
styraciflua (The Sweet Gum of the United States) ...	3/6 & 5/-
Liriodendron (Tulip Tree)	
chinensis	7/6 to 10/6
tulipifera Large tulip-like soft green and yellow blossoms.	7/6 & 10/6
— aurea	7/6 to 15/-
A golden leaved form.	
Lonicera (Shrubby Honeysuckle)	
fragrantissima Sweetly scented creamy white flowers.	2/6
Standishii	2/6
Fragrant pinkish white flowers.	
tartarica	2/6
Lycium	
europæum	2/6 & 3/6
Maclura	
aurantiaca (Osage Orange) ...	2/6 & 3/6
Produces fruit like small oranges.	
Magnolia	
alba spectabilis	7/6 to 15/-
— superba	7/6 to 15/-
Alexandrina	7/6 to 15/-
amabilis	7/6 to 15/-
conspicua (<i>Yulan</i>)	7/6 & 10/6
Large creamy white blossoms.	
— Soulangeana	7/6 & 10/6
Purple shaded flowers.	
cordata	10/6
gracilis	7/6 to 15/-
Lennei	7/6 & 10/6
parviflora	10/6 to 15/-
A free-flowering deciduous shrub, fragrant pure white flowers with a central disc of deep claret coloured stamens.	

Magnolia —continued.	Each
purpurea (<i>obovata</i>)	7/6 & 10/6
rustica fl., pl.	7/6 to 15/-
speciosa	7/6 to 15/-
Stellata (<i>Halleana</i>) Sweetly scented star-like white flowers	7/6 & 10/6
Paulownia imperialis	5/- to 21/-
Large purplish violet flowers, something like the Foxglove.	
Perowskia	
atriplicifolia	2/6
Grey foliage and spiky heads of deep violet flowers.	
Philadelphus (Mock Orange)	
coronarius (The Common Sweet Scented Mock Orange) ...	2/- to 3/6
grandiflorus A very fine species with large flowers.	
Lemoinei	
— Avalanche	2/- & 3/6
Large sweet scented flowers.	
— Banniere	2/- & 3/6
— Bouquet Blanc	2/- & 3/6
— Boule d'Argent	2/6 & 3/6
Very free flowering.	
— Conquete	2/6 & 3/6
Candelabre	2/6 & 3/6
coronarius foliis aureis ...	2/6 & 3/6
dianthiflorus plenus	2/6 & 3/6
Delavayi	2/6 & 3/6
Manteau d'Hermine	2/- & 3/6
Magdelene	2/6 & 3/6
Mont Blanc	2/- & 3/6
Fragrant pure white flowers.	
Sericanthus	2/6 & 3/6
Yokohama	2/6 & 3/6
Dame Blanche	2/6 & 3/6
A beautiful new variety with fimbriated semi-double creamy white flowers, which are very sweetly scented.	
Fantaisie	2/6 & 3/6
The branches are covered the whole length with beautiful pure white flowers slightly rose tinted in centre; very free flowering and pleasantly scented.	
Œil de Pourpre	2/6 & 3/6
Pretty arching branches of flowers with four petals, the base of which are distinctly spotted blackish purple; <i>new</i> .	
purpureo maculatus	2/6 & 3/6
Forms a small compact bush about 3 feet high, with large four-petalled white flowers, prettily spotted rosy purple in the centre, agreeably fragrant.	
Rosace	2/6 & 3/6
Enormous creamy white double flowers 2 to 3 inches in diameter, delightfully scented.	
Virginal	2/6 & 3/6
A very vigorous grower, with large leaves and pure white flowers, produced the whole length of the branches; very sweetly scented.	

DECIDUOUS TREES AND SHRUBS—GENERAL COLLECTION—continued.

Platanus (London Plane)	Each
acerifolia	from 2/6 to 7/6
Populus (Poplar)	
alba (Abele)	2/- to 3/6
— argentea	2/- to 3/6
— Bolleana (<i>pyramidalis</i>)	2/- to 3/6
balsamifera (Balsam Poplar)	2/6 to 5/-
fastigiata (<i>nigra pyramidalis</i>)	2/6 to 5/-
monilifera (<i>deltoidea</i>)	2/6 to 5/-
— canadensis aurea	3/6 to 7/6
canadensis nova	2/6 to 5/-
tremula (Aspen)	2/- to 3/6
— pendula	3/6 to 7/6

PRUNUS.

Flowering Almonds and Peaches, bush from 5/-, standards from 7/6 (except where otherwise priced).

Prunus (<i>Amygdalus</i>)	Each from
communis amara (Bitter Almond)	5/-
The Spring flowering Pink Almond.	
Davidiana alba Large white flowers, early flowering.	5/-
— rubra Flowers rich dark red, one of the first in bloom.	5/-
dulcis (Sweet Almond)	5/-
Attractive red flowers.	
— macrocarpa	5/-
Large white flowers; late.	
— purpurea bush	7/6
A pretty variety with rich purple foliage.	
nana (Dwarf Almond)	2/6
Rosy pink flowers in Spring, suitable for Rock Garden.	
— Georgica	3/6
pendula alba ... standard	10/6 to 21/-
— rosea	10/6 to 21/-
Persica flore pleno (Double-Flowering Peach)	5/-
— crimson	5/-
Double crimson flowers.	
— magnifica	5/-
Bright carmine red flowers semi-double.	
— rose	5/-
Rosy red double flowers.	
— white	5/-
Double white.	
Clara Meyer	5/-
Double, bright rose, one of the best.	

Flowering Cherries.

Prunus (<i>cerasus</i>)	
Avium (Gean)	2/- to 3/6
Clusters of white flowers, followed by black fruit.	
— flore pleno (<i>multiplex</i>), double flowered Cherry	3/6 & 5/-
Laurocerasus schipkaensis	3/6 to 7/6
padus (Bird Cherry)	2/6 & 3/6
Long drooping racemes of pure white flowers.	
pumila , (Sand Cherry)	3/6 to 7/6
serotina (American Cherry)	3/6 & 5/-
serrulata (Double White Japanese Cherry)	5/- & 7/6

Prunus (<i>cerasus</i>)—continued.	Each
— James H. Veitch	5/- & 7/6
Rose pink flowers.	
Watereri , Waterer's Double Pink	5/- & 7/6
An exceedingly fine form.	

NEW JAPANESE CHERRIES.

The most enchanting effects are possible with these Eastern gems. From March onwards their beauty is unrivalled, their colours soft and pleasing. No effort or expense has been spared to make our collection unique of its kind in this country, and they have proved perfectly hardy and very accommodating.

Standards and Half-Standards, 10/6 to 21/-	Bushes
Ama-no-gawa (<i>Apple Blossom</i>), semi-double, bluish pink, upright growth, late	7/6 to 10/6
Beni-hagan , small single flowers, white tinged pink in centre, dense habit, one of the first to open	
Hizakura , semi-double deep pink, very free, flowers medium size.	
Ko-fugen , large double bluish pink flowers, late, good habit	
Lutea flore pleno , the yellow double Japanese cherry	
Naden , large single pink flowers, very free	
Ojochin , one of the best, large double white flowers, free, pendant, green foliage	
pendula rosea	10/6 to 21/-
Beautiful rosy pink flowers, very free flowering and of pendulous habit.	
Shiro-fugen , large double white, with faint bluish tinge pendant blooms, late, dark foliage	
Shiro-taye , single white, loose habit, medium size	
Yoshino , single white, pink centre, small, very free, one of the first to open, rapid grower.	

Prunus (Flowering Plum).

Myrobalana fl. pl. (<i>Mume</i>)	2/6 & 3/6
(<i>cerasifera</i>)	
Pissardi (<i>cerasifera atropurpurea</i>)	3/6 & 5/-
White flowers and deep purple foliage.	
— Moseri fl. pl. Double rose flowers, purple foliage.	3/6 & 5/-
sinensis flore albo-pleno	3/6 & 5/-
Covered in April and May with double white flowers.	
— roseo pleno	3/6 to 7/6
A pretty double pink variety.	
spinosa flore pleno	2/6 to 5/-
triloba	5/- & 7/6
— fl. pl. ,	5/- to 10/6
One of the handsomest early flowering subjects, large double flowers, soft rosy pink.	

DECIDUOUS TREES AND SHRUBS—GENERAL COLLECTION—continued.

Pyrus	Each
Apple Section	
Bush from 3/6 each, standards from 5/6 each (except where otherwise priced).	
Aldenhamsensis	5/- to 10/6
Crimson flowers.	
angustifolia	3/6 to 7/6
— Bertini	3/6 to 7/6
— coronarius	3/6 & 5/-
Pink flowers.	
floribunda	3/6 & 5/-
Clusters of pink flowers and crimson buds in early Spring.	
— atro-sanguinea	3/6 & 5/-
A deep red variety.	
Japonica (<i>see Cydonia</i>)	—
Malus albo pleno	3/6 & 5/-
niedzwetzkyana	3/6 to 7/6
nigra	3/6 to 7/6
prunifolia (Siberian Crab)	3/6 & 5/-
Masses of white blossoms, followed by yellowish red tinted fruits.	
Sargentii	3/6 to 7/6
Scheideckeri	3/6 & 7/6
Rosy red flowers.	
spectabilis	3/6 to 7/6
Pale red semi-double flowers in April and May.	
— flore pleno	3/6 to 7/6
Wilsonii	3/6 to 7/6
White Beam and Service Section.	
Aria (White Beam Tree)	3/6 & 5/-
Aucuparia (Mountain Ash)	2/6 to 5/-
— pendula (Weeping Mountain Ash)	3/6 to 7/6
Sorbus (True Service Tree)	3/6 & 5/-
Tormalis	2/6 to 5/-
vestita	3/6 to 7/6
Quercus (Oak)	
alba	3/6 to 7/6
Americana rubra	5/- to 10/6
aquatica (<i>nigra</i>)	3/6 to 7/6
Banisteri (<i>ilicifolia</i>)	3/6 to 7/6
Cerris (Turkey Oak)	3/6 to 7/6
— argentea variegata	5/- to 10/6
coccinea (Scarlet Oak)	5/- to 10/6
conferta (<i>pannonica</i>)	7/6 to 15/-
nigra (Black Oak)	5/- to 10/6
palustris (Marsh Oak)	2/6 to 7/6
pedunculata (English Oak)	1/6 to 3/6
— Concordia (Golden)	5/- to 10/6
— fastigiata	3/6 to 7/6
— purpurascens	3/6 to 7/6
Phellos (Willow Oak)	3/6 to 7/6
Rhamnus	
alpina	3/6 & 5/-
Frangula	2/6 to 5/-
Imeritiae	2/6 to 5/-
Rhodotypos	
kerrioides	2/6 to 5/-
Large white Anemone-like flowers and pretty silky foliage.	
Rhus (Sumach)	
Cotinus (Venetian Sumach)	2/6 & 5/-
Flowers composed of reddish fluffy hairs.	

Rhus—continued.	Each
— purpureus	2/6 & 5/-
Panicles of purple tinged flowers.	
glabra	2/6 & 3/6
Highly coloured leaves in Autumn.	
typhina (Vinegar Tree)	2/6 & 5/-
Crimson seed clusters in Autumn and orange scarlet Palm-like leaves.	
— laciniata	2/6 & 5/-
Similar to above, but with fern-like leaves.	
Ribes	
americanum	2/-
— pensylvanicum	2/-
aureum	2/-
A beautiful yellow flowered variety.	
Gordonianum	2/-
sanguineum	2/-
Drooping trusses, deep rose flowers.	
— albidum	2/- to 3/6
Pretty sprays of white flowers.	
atrosanguineum	2/-
Deep crimson flowers.	
— fl. pl.	2/6
A double form of the preceding.	
— King Edward VII.	2/6
Clear bright crimson flowers, very fine.	
speciosum (The Fuchsia Flowered Currant)	2/6
Robinia (Acacia)	
hispida (Rose Acacia)	3/6
Soft green fern-like foliage and pendulous sprays of rose pink flowers.	
— macrophylla	2/6 to 7/6
Kelseyi	
5/- & 10/6	
A beautiful new Rose Acacia with pretty rosy pink flowers in long pendulous racemes, freely produced.	
neo-mexicana	3/6 & 7/6
Reddish purple flowers late in Summer.	
Pseudo-acacia (Locust Tree)	2/6 & 7/6
A handsome quick growing tree with white flowers.	
Rose	
Species in many fine flowering and fruiting forms for naturalizing. <i>See Rose Catalogue.</i>	
Rubus (Bramble)	
australis	2/6 & 3/6
A grand New Zealand species forming a tangled mass of zig-zag stems of a pretty green shade, and covered with numerous white spines; the leaves are almost invisible; fine for rock garden.	

DECIDUOUS TREES AND SHRUBS—GENERAL COLLECTION—continued.

Rubus (Bramble)—*continued*. Each
bambusarum 2/6 & 3/6

A very fine bramble with trailing branches 10 to 12 feet long; the wood of the young growths is covered with a dun-coloured tomentum, and the flowers produced in terminal racemes, followed by black edible fruit.

biflorus 1/6 & 2/6
deliciosus 3/6 & 5/-

A beautiful variety bearing in June handsome snow-white flowers.

flagelliformis 3/6 & 5/-

A species from central China, with broad lance-shaped metallic leaves which have an irregularly serrated margin; the white flowers are borne on long graceful weeping branches and the young growth covered with a thick dun-coloured tomentum.

fruticosus (Common) 1/-

— **flore-albo pleno** 2/-

The pure white double flowering variety.

— **roseo pleno** 2/-

Pretty rose coloured double flowers.

Giraldiana 3/6

innominatus 2/-

Dark green velvety leaves, white underneath, and long trusses of orange scarlet berries.

laciniatus 1/6

lasiostylus 2/6

A recent introduction from China, and one of the most handsome of the white-washed Brambles; the branches are pure white and covered with innumerable yellowish spines.

leucodermis 2/6

An interesting white stemmed variety.

nutkanus 2/-

A pretty creeping species with white flowers and hairy stems.

odoratus 2/-

Handsome vine-like leaves and large purplish rose flowers; forms a dense bush.

phœnicolasius (Japanese Wineberry) 1/6

Leaves silvery underneath, stems covered with red hairs.

spectabilis 2/-

Produces bright crimson flowers in spring.

Wilson, Junior 1/6

Salix (Willow) Each
 — **vitellina** (Golden Willow) ... 1/6 to 3/6

americana pendula 5/- to 10/6

babylonica 1/6 to 3/6

A graceful weeping tree with narrow foliage.

— **ramulis** 2/6 & 3/6

vitellina Britzensis 1/6 to 3/6

aurea 1/6 to 3/6

Sambucus (Elder)

canadensis 1/6 to 3/6

Creamy white flowers, followed by purplish black fruit.

nigra

— **aurea** 2/- to 3/6

Beautiful golden foliage.

— **laciniata** 2/- to 3/6

Prettily cut foliage.

Sophora

japonica pendula 2/6 to 5/-

Spartium

junceum (Spanish Broom) ... 2/-

Spiræa (Shrubby Varieties)

Aitchisonii 2/6 & 3/6

A species from Afghanistan with red bark, fern-like foliage, and panicles of white flowers.

arguta (*multiflora*) 2/6 to 3/6

Covered with white flowers in early Spring; a splendid shrub.

ariæfolia (*discolor*) 2/6 & 3/6

Plume-like sprays of creamy white flowers during Summer.

bullata (*crispifolia*) 2/- to 3/6

bumalda 2/6

— **Anthony Waterer** 2/-

A lovely variety with panicles of intense bright carmine red flowers.

callosa (*japonica*) 2/- to 3/6

Pretty foliage, sometimes variegated.

callosa alba from 2/- to 3/6

Pure white flowers, compact habit.

canescens 2/6 & 3/6

confusa (*medea*) 2/- to 3/6

Flowers in May, pure white.

crispifolia 2/- to 3/6

SYRINGA MADAME LEMOINE. Large trusses of pure white double bloom. (See page 65.)

SYMPHORICARPUS RACEMOSUS. The White Snowberry (See page 65.)

DECIDUOUS TREES AND SHRUBS—GENERAL COLLECTION—continued.

Spiræa (Shrubby Varieties)—*continued.*

Each

Douglasii ... 2/6 to 3/6
Dense spikes of rosy red flowers.

Lindleyana ... 2/6 & 3/6
Produces during August and Sept. large sprays of creamy white flowers.

opulifolia ... 2/- to 3/6

— **aurea** ... 2/6 & 3/6
Attractive golden foliage variety.

prunifolia flore pleno ... 2/- to 3/6

Thunbergii ... 2/- to 3/6
Masses of snowy white flowers in early Spring.

Van Houttei ... 2/- to 3/6
and others.

Staphylea (Bladder Nut)

colchica ... 2/6 to 5/-
White flowers in Spring.

pinnata ... 2/6 to 5/-

Stephanandra

flexuosa ... 2/6 & 3/6
Recumbent stems and delicately cut leaves.

Tanakæ ... 2/6 & 3/6
A Japanese variety, leaves finely cut, turns a brilliant colour in Autumn.

Styrax

japonicum ... 5/- to 10/6
Covered in late Spring with fragrant pure white flowers resembling Snowdrops.

Obassia ... 5/- to 10/6
One of the finest flowering trees introduced from Japan; the Snowdrop-like flowers are waxy-white, and borne in long drooping racemes, with large lustrous green leaves.

Sutherlandia (*see Colutea*)**Symphoricarpus** (Snowberry)

fructo-rubro ... 1/6 to 2/6

occidentalis ... 1/6 to 2/6

racemosus (*syn. mollis*)
(The White Snowberry) ... 1/6 to 2/6

— **purpureus** ... 1/6 to 2/6
Deep red fruiting variety.

vulgaris variegatus ... 1/6 to 2/6
Prettily variegated rose and white foliage.

Syringa (Lilac). *Species.*

Emodii ...
Beautiful rosy white flowers.

japonica ...
Enormous sprays of pure white flowers.

Josikæa ...
Rosy purple flowers in June.

persica (Persian) ...
Clear lilac flowers.

— **alba** ...
Large white flowers.

villosa ...
Flowers delicate mauve.

vulgaris (Common Lilac) ...

S. vulgaris, *Single Varieties.*

alba (Common White Lilac) ...

— **grandiflora** ...
White; a large flowered variety.

Charles X. ...
Rosy purple.

Congo ...
Bright Wallflower red.

Dr. Lindley ...
Rosy purple.

Geant des Batailles ...
Dark red.

Lucie Baltet ...
Flesh.

Madame F. Morel ...
Violet pink.

Marie Legraye ...
White, very fine.

Princess Marie ...
Pinkish lilac.

Seweginzowii superbum 5/-
Souvenir de L. Spath ...

Dark red; one of the finest varieties.

S. vulgaris, *Double varieties.*

Alphonse Lavallee ...
Blue, shaded violet.

Charles Joly ...
Very dark red.

Comte de Kershove ...
Fine pink.

Condorcet ...
Blue, white reverse, large.

Dr. Masters ...
Clear lilac.

Emile Lemoine ...
Flesh rose.

Grand duc Constantin ...
Lilac.

Lemoinei ...
Rose, turning to lilac.

Leon Simon ...
Blue, buds coral.

Louis Henry ...
Violet rose.

Madame A. Chatenay ...
Milk white.

Madame Casimir Perier ...
Creamy white.

Madame Lemoine ...
Pure white.

Michael Buchner ...
Pale lilac.

Bushes 5/- & 7/6 each. We have also a fine stock of specimen plants, prices on application Standards from 7/6 to 15/- each except where otherwise priced.

STAPHYLEA COLCHICA.

Producing in Spring elegant white flowers with delicate odour. (See page 65)

DECIDUOUS TREES AND SHRUBS—GENERAL COLLECTION—continued

Syringa (Lilac)—continued.

President Carnot	For prices see page 65.
Pale lilac, lighter centre.	
President Falliers	
Pale pink, large.	
President Grevy	
Blue, shaded rose.	
William Robinson	
Violet mauve, very attractive	
Virginite	
Pale blush.	

Hybrids

Unnamed, mixed, for large area planting, exceptional value. per doz. 22/6
per 100 175/-

Tamarix (Tamarisk) Each

gallica 1/6

Plume-like sprays of pink flowers in August and Sept.

germanica from 1/6

Soft pink flowers, deep glaucous foliage.

hispida æstivalis 2/-

Very free flowering and distinct; the branches are covered in July with beautiful plume-like flowers of a very pretty carmine pink colour.

odessana 1/6 to 2/6

Pretty soft pink flowers.

parviflora 1/6 to 2/6

Tilia (Lime)

europæa (Common Lime) ... 2/6 to 7/6

platyphylla (The Red-twigg'd Lime) 2/6 to 7/6

Ulmus (Elm)

campestris (English Elm) ... 2/6 to 5/-

Viburnum

alnifolium præcox 3/6 & 5/-

Carlesii 5/- to 7/6

A superb Chinese shrub, with pure white sweet scented flowers in Spring.

coriaceum 3/6 & 5/-

Viburnum—continued.

Each

fragrans, a distinct form from China with exquisite perfume (See illustration, p. 48) ... 5/-

Lantana (Wayfaring Tree) ... 1/6 to 3/6

Clusters of white flowers in Summer; leaves turn a brilliant colour in Autumn.

lentago 5/- to 7/6

Creamy white flowers, fragrant, blue-black fruit.

macrocephalum (Chinese Snowball Tree) 3/6 to 7/6

Large heads of snowy white flowers.

Opulus (Guelder Rose)

— **nanum** 1/6 to 3/6

Suitable for edge of shrub border; height 1½ ft. ...

— **sterile** (Snowball Tree) ... 2/6 & 5/-

plicatum (Japanese Snowball Tree) 2/6 & 5/-

Freely covered with large ivory white balls of flowers in June. (See illustration, p. 47).

— **tomentosum** 2/6 & 5/-

Resembles the preceding, but of erect growth.

— **Mariesii** 5/- to 10/6

A handsome shrub closely allied to the Japanese *Viburnum plicatum*; the creamy white flowers are freely produced during May; of graceful spreading habit.

— **theiferum** 3/6 to 7/6

prunifolium 2/6 & 3/6

stellulatum 3/6 & 5/-

Veitchii 3/6 to 7/6

venosum 5/- to 7/6

White flowers, blue fruit.

Vitex

Agnus-castus (Chaste Tree) ... 3/6 & 5/-

Weigela (See *Diervilla*).

TAMARIX HISPIDA. (See page 67.)

CLIMBERS.

General Collection.

In most cases larger specimens can be supplied at proportionately increased rates.

Those marked E are evergreen.

Actinidia	Each
arguta 2/6 & 3/6 A Japanese climber with small white flowers.	
chinensis 3/6 & 5/- Bright yellow flowers, about 1½ inches in diameter, freely produced on ripened growths; large heart-shaped leaves; splendid for pergola or pillar.	
Kolomikta 3/6	
Akebia	
E quinata 2/6 Pretty sweet scented purple flowers, followed by cylindrical berries.	
Ampelopsis (Virginian Creeper)	
hederacea (<i>Vitis quinquefolia</i>) 2/-	
— muralis 2/-	
Lowii (<i>Vitis inconstans Lowii</i>) 2/- Small leaves, self clinging.	
Veitchii (<i>Vitis inconstans</i>) ... 2/- Rich crimson leaves, self clinging.	
— purpurea 2/- A self-clinging variety with rich purple crimson leaves.	
E sempervirens (<i>Vitis Striata</i>) 2/6	
Aristolochia	
Sipho (Dutchman's Pipe) ... 2/6 A rapid climber with strongly scented yellow flowers.	
Berberidopsis	
E corallina 5/- & 7/6 Clusters of coral red flowers and spiny leaves.	
Bellardiera longifolia 3/6 & 5/- A rare climbing plant with tubular creamy white flowers, followed by indigo blue berries.	
Bignonia (<i>Tecoma</i>)	
grandiflora 2/6 & 3/6	
radicans 2/6 & 3/6 Orange scarlet bell-shaped flowers.	
— sanguinea 2/6 & 3/6	
— Thunbergii 2/6 & 3/6	
Celastrus	
scandens (Bitter Sweet) ... 2/6 Trusses of pale yellow flowers, succeeded by bright orange yellow berries.	

Ercilla (*Bridgesia*)

E spicata (<i>volubilis</i>) 2/- each. Reddish purple flowers, produced in great profusion during March and April.
E Hedera (Ivy)

IVIES.—Hedera Helix.

From 24/- to 42/- per dozen.

GOLD leaf varieties.

Dentata Aurea , large leaf with broad margin of gold, heavily variegated.
Aurea Densa , very dense gold colour.
Angularis Aurea , soft golden colour.
Palmata Aurea , golden marked five fingered ivy.

SILVER leaf varieties.

Canariensis Latifolia Maculata , Variegated Irish, leaves splashed silver.
Lee's Silver , medium size leaf, broad margin.
Silver Queen , medium size leaf, variegated silver.
Variegata Elegantissima , a beautiful silver edged Ivy.

GREEN leaf varieties.

Roegneriana , large feathery heart shaped leaves.
Canariensis (Irish Ivy) , in pots.
Canwoodiana , fine divided foliage.
Palmata , five finger leaved Ivy.
Emerald Green , very bright green.
Rhomboidea ovata , compact grower.
Marmorata minima , small foliage thickly set in stem.

Humulus (Common Hop)

lupulus 1/- Useful for covering old arbours, tree stumps, etc.
— foliis-aureis (Golden Leaved Hop) 1/6 A golden leaved form of above.

Jasminum	}	2/- each.
floridum		
fruticans		
nudiflorum		
Produces in Winter lovely yellow flowers before the leaves.					
— foliis-aureis	}	2/- each.
Similar to above, but with variegated foliage.					
E officinale	(The White Sweet scented Jasmine.)				
— grandiflorum			
Large white flowers sweetly scented.					

CLIMBERS—GENERAL COLLECTION—continued.

Jasminum —continued		Each.
E Primulinum	2/6	
A magnificent Chinese species with bright golden yellow flowers in great profusion during Spring; especially suitable for a south or south-west wall.		
E revolutum	2/-	
Large yellow flower suitable for warm walls.		
Wallichianum		
Golden flowers, strong growing.		
Lonicera (Honeysuckle)		
brachypoda	2/-	
— aureo-reticulata		
flexuosa		
gigantea		
Halleana (<i>Japonica</i>)		
Japonica aureo reticulata		
Morrowi		
Periclymenum (Common Honeysuckle)		
— belgica (Early Dutch)		
— serotina (Late Dutch)		
sempervirens (Scarlet Trumpet.)		
tartarica rosea		
Menispermum		
canadense	2/6	
A quick growing climber with clusters of yellow flowers.		
E Muehlenbeckia		
Pretty trailing plants with small round foliage.		
complexa	2/6	
varians	2/6	
Passiflora		
cœrulea	2/6	
Blue Passion Flower.		
— Constance Elliott	2/6	
White Passion Flower.		
Periploca		
græca (Silk Vine)	2/-	
A rapid growing deciduous Climber, producing in July brownish red flowers.		
Polygonum		
auberti	2/6	
Baldschuanicum	2/-	
A rapid growing climber with clusters of beautiful pure white flowers; unequalled for covering old tree trunks, etc.		
multiflorum	2/6	
Masses of white flowers, very vigorous grower.		
Schizophragma		
hydrangeoides (The Climbing Hydrangea)	3/6 to 7/6	
White flowers, splendid for west wall or tree stump.		
Solanum		
crispum (<i>Glasnevin variety</i>)	2/6 to 3/6	
jasminoides	2/6	
Sprays of beautiful pure white flowers, splendid for warm sunny wall.		
Stauntonia		
hexophylla	2/6 & 3/6	
Elatifolia	2/6 & 3/6	
Fragrant greenish yellow flowers in Spring.		
Vitis (Vine)		
aconitifolia	3/6	
Distinct prettily cut foliage.		
armata	3/6	
Bright red tints in Autumn.		
— Veitchii	5/-	
One of the finest Vines, succeeding well in any situation; the large leaves in Autumn turn a rich crimson-lake tint, and during summer are of a rich bronze green.		
Coignetia	5/-	
Handsome, brilliantly coloured leaves in Autumn.		
Henryana	3/6	
Dark velvety green leaves with distinct white mid-rib, which forms a pretty contrast in Autumn, when other parts of leaves change to red.		
heterophylla	2/6	
— d ssecta	2/6	
— humifolia	2/-	
Remarkable in Autumn for its turquoise blue, speckled black, berries.		
— variegata	2/6	
Pretty markings of white and pale rose tints on a greenish ground.		
Labrusca	2/6	
Roundish heart-shaped leaves and amber coloured berries in Autumn.		
leeoides	5/-	
Rich glossy green leaves above and deep claret underneath. ...		
megalophylla	3/6	
Very large dark green leaves above and pale glaucous green underneath.		
orientalis	3/-	
repens	2/6	
Reddish brown and claret leaves, self-clinging.		
sinensis	2/3	
Variable bright green leaves.		
Thomsonii	5/-	
Claret purple tinged leaves; a lovely species.		
Thunbergii	5/-	
Leaves turn a lovely rich crimson in Autumn; very handsome.		
vinifera purpurea	3/-	
The purple leaved vine.		
vulpina	3/-	
Lovely Autumn tints.		

WISTARIA MULTIJUGA ALBA.

Showing the effect of its numerous panicles of white bloom.

(See page 72)

CLIMBERS—GENERAL COLLECTION—continued.

<i>Wistaria</i> (<i>Glycine</i>)	Each.
<i>sinensis</i> 5/- to 15/-	
One of the most handsome climbers, bearing clusters of lilac mauve flowers.	
Standards from 25/- each.	
— <i>alba</i> 5/- to 15/-	
A beautiful white form of the above.	
— <i>flore pleno</i> 5/- to 15/-	
A handsome double variety.	

<i>Wistaria—continued.</i>	Each.
<i>multijuga</i> 5/- to 15/-	
Long racemes of beautiful lilac flowers. ...	
— <i>alba</i> 5/- to 15/-	
A lovely white form of the above.	
— <i>rosea</i> 7/6 to 15/-	
Pale pink, very fine.	

CLEMATIS.

We grow large numbers of these beautiful climbers, particularly of the Hybrid varieties and the following collection provides for almost every requirement, embracing as it does the finest flowered forms and a wide range of colours.

SPECIES.	Each.
Armandii 5/-	
A distinct species, with pure white flowers 2 inches in diameter, freely produced in April; ever-green foliage.	
coccinea 2/-	
Scarlet.	
Flammula (Virgin's Bower) ... 2/-	
White, sweet scented.	
— rubro marginata 2/-	
White, red margin.	
grata 2/-	
Bluish white flowers, freely produced.	
graveolens 2/-	
Yellow.	
montana 2/-	
White.	
— grandiflora 2/-	
Fine white.	
— rubens 2/-	
Soft rosy red.	
— perfecta 2/6	
A very effective climber with enormous white shaded flowers of perfect form.	
— Wilsonii 2/6	
White, late flowering.	
orientalis 2/-	
White, sweet scented.	
— tangutica 2/-	
Rich golden yellow.	
paniculata 2/-	
Autumn flowering, white.	
Vitalba (Traveller's Joy) ... 2/-	
Viticella 2/-	
Bluish purple.	

Hybrid Varieties.

Albert Victor
Deep lavender, pale bar.		
Andersoni Henryi
Beautiful creamy white.		
Belle of Woking
Double, silvery grey, extra good.		
Comtesse de Bouchard
Beautiful satiny rose.		
Countess of Lovelace
Bluish lilac, rose shaped.		
Countess of Onslow
Bright violet purple.		
Duchess of Edinburgh
Double white, free flowering, sweetly scented, the best double white.		
Edith Jackman,
White.		
Fairy Queen
Pale flesh with striking pink bar.		
Fair Rosamond
Bluish white with indistinct wine bar.		
Gipsy Queen
Bright velvety purple.		
Jackmanni
Deep violet purple, very free flowering.		
Jackmanni alba
A white variety of preceding.		
— superba
Dark violet purple; improvement on type.		
Kermesina
Bright red, free growing.		
King Edward VII.
Violet.		
Lady Betty Balfour
Deep velvety purple.		

Strong Plants, 2/- each.

CLEMATIS NELLIE MOSER.

Flowers white with pink tint and deep carmine bar. (See page 74.)

CLEMATIS—continued.

Lady Caroline Neville ...		Oriflamme ...	
French white, mauve bar.		Bright red, small flower.	
Lady Northcliffe ...		Otto Freebel ...	
Beautiful deep lavender, tinted bright blue with purple bar and white stems.		Greyish white, very large.	
Madame Baron Veillard ...		President ...	
Lovely pale lilac rose.		Purple, suffused with claret.	
Madame Edouard Andre ...		Prince of Wales ...	
Bright velvety red, free flowering.		A deep bluish mauve with satiny surface.	
Madame Grange ...	2/- each	Purpurea Elegans plena ...	
Crimson violet, red bar.		Double, garnet purple.	
Madame Jules Correvon ...		Queen Alexandra ...	
Deep rich red.		Pretty pale lavender, shaded silvery white.	2/- each
Madame le Coultre ...		Sensation ...	
Pure white.		Rich satin mauve.	
Marcel Moser ...		Sir Garnet Wolseley ...	
Mauve violet, distinct red bar.		Bluish ground with a dash of bronze, distinct plum-red bar.	
Mrs. Geo. Jackman ...		Star of India ...	
Satin white with creamy bar.		Reddish violet purple, red bars.	
Mrs. Spencer Castle , ...		Ville de Lyon ...	
Pale pinkish heliotrope.		Bright carmine red, deeper round edge.	
Nellie Moser ...	2/6 each	Wm. Kennett Deep lavender, very free flowering.	
White flowers, tinted pink, deep carmine bar. See illustration, page 73).			

DAVIDIA INVOLUCRATA. Conspicuous white bracts produced in May.

PLANTS FOR COVERING WALLS, BUILDINGS, ETC.

Those marked E are evergreen.

Ampelopsis (See page 69.)		Each.
E Azara		
Gilliesii ...	from 2/6 to	5/-
integrifolia ...	2/6 to	5/-
microphylla ...	2/6 to	5/-
E Berberis		
stenophylla ...	1/6 to	3/6
Berchemia		
racemosa ...	2/6 to	5/-
— variegata ...	2/6 to	5/-
Buddleia		
Colville ...	3/6 &	5/-
globosa ...	2/6	
variabilis magnifica ...	2/6	
— superba ...	2/6	
— Veitchiana ...	2/6	
Calycanthus		
præcox (<i>Chimonanthus fra-</i> <i>grans</i>) ...	2/6 to	5/-
Caryopteris (Blue Spiræa)		
mastacanthus ...	2/6	
E Ceanothus		
azureus ...	2/6 &	3/6
— Ceres ...	2/6 &	3/6
— Gloire de Plantieres ...	2/6 &	3/6
— Gloire de Versailles ...	2/6 &	3/6
— Indigo ...	2/6 &	3/6
— Marie Simon ...	2/6 &	3/6
dentatus ...	2/6 &	3/6
divaricatus ...	2/6 &	3/6
floribundus ...	2/6 &	3/6
thrysiflorus ...	2/6 &	3/6
Veitchianus ...	2/6 &	3/6
E Choisya		
ternata ...	2/6 to	5/-
Coronilla		
emerus ...	2/6	
Cotoneaster		
E angustifolia ...	2/6 to	7/6
applanata ...	2/6 to	5/-
E buxifolia ...	1/6 to	3/6
E horizontalis ...	2/6 to	5/-
E microphylla ...	1/6 to	3/6
Simonsii ...	1/6 to	3/6
Cratægus		
E crenulata ...	3/6 to	7/6
E Pyracantha ...	3/6 to	7/6
E — Lalandi ...	3/6 to	7/6

Cydonia (Pyrus)		Each.
japonica ...	from 2/6	
— atropurpurea ...	3/6 &	5/-
— aurora ...	3/6 &	5/-
— cardinalis ...	3/6 &	5/-
— Moerloesii ...	3/6 &	5/-
— nivalis ...	3/6 &	5/-
— rosea ...	3/6 &	5/-
Maulei ...	3/6 &	5/-
— alba ...	3/6 &	5/-
— superba ...	3/6 &	5/-
Desmodium		
penduliflorum ...	2/6	
Elæagnus		
E macrophyllum ...	5/- &	7/6
E pungens variegatus ...	3/6 &	5/-
E — Simonii ...	3/6 &	5/-
Embothrium		
E coccineum ...	7/6 to	15/-
Eriobotrya (Loquat Tree)		
japonica ...	5/- &	7/6
E Escallonia		
Edinburgh var. ...	2/- to	3/6
exoniensis ...	2/- &	3/6
Langleyensis ...	2/6 &	3/6
macrantha ...	2/- to	3/6
— Ingramii ...	2/- to	3/6
— sanguinea ...	2/- to	3/6
Montevidensis ...	2/6 &	3/6
Phillipiana ...	2/6 &	3/6
E Eugenia (See Myrtus)		
Forsythia		
intermedia ...	2/- &	3/6

				Viburnum			
					macrocephalum 3/6 to 7/6
					plicatum 2/6 to 5/-

We also grow a unique collection of Feature Trees in Standard and other forms (as distinct from topiary), such as

Thuia occidentalis pendula
Ilex (Holly) crenata in a variety of forms.
Ilex (Holly) aurea.
Retinispora filifera aurea.

Cupressus filiformis.
Cupressus Lawsoniana lutea.
Retinispora pisifera variegata nana.

and others of which details would be supplied on application. Their variations in colour are enchanting and render them very valuable for Landscape effect.

A Table for Planters.

JOHN WATERER, SONS & CRISP, Limited,

GIVE SPECIAL ATTENTION TO

Estate Improvement, Landscape Gardening and Alterations.

Rock, Wall and Water Gardens

- - Artistically Designed and Constructed. - -

WE are prepared to make Plans, give estimates and carry out any kind of landscape work, for the development of New Grounds or for the renovation and replanting of Old Gardens or worn-out Shrubberies, etc. The construction of Rock-work, the making of Ponds and Water Gardens, and the formation of Golf Courses, Carriage Drives, etc., are leading features, and carefully undertaken in any part of the country.

PLANTING FOR IMMEDIATE EFFECT.

We are prepared to send Representatives to advise specially on PLANTING FOR IMMEDIATE EFFECT, and to quote special prices.

We keep regularly transplanted a large number of Trees, Evergreens, Conifers, etc., for this purpose, which cannot be individually priced in the Catalogue.

ENTRANCE TO HOME GROUND AT BAGSHOT.
